THE SENATE JUDICIARY COMMITTEE.—In other column will be found a notice from nator Shoemaker, directed to the Judiciary ommittee of the Senate, stating that the Committee will meet in Harrisburg on Monday, ay 13th, at two o'clock, for the purpose of vestigating the charges of extortion in freight d passenger rates, alleged to be made by railad companies in this State. Parties inter-ted in the investigation are also invited to be esent.

GREAT LOSS OF LUMBER.—The boom in the squesanna, at Lock Haven, was broken rough on Thursday, and it is estimated that out ten millions feet of lumber were lost ereby.

DID President Johnson grant so protracted d friendly an interview with the Japanese robats the other day with the idea of taking ssons from those gymnastic Orientals in their mons ring trick, or swinging around several reles at once?

THE officers of the Austrian army are said to hot for further fighting, "smoothing their onde moustaches complacently at the immi-nt prospect of a war." We suppose they rform the operation with their finegers since ussia cut their combs so badly.

A GENEROUS DONATION.—G. Dawson Cole-an, Esq., Senator from Lebanon District, paid er to the Treasurer of the Association in banon for the erection of a Soldiers' Monument in that place, $1,030 10, the amount of r. Coleman's salary and mileage for the ses-on just closed.

THE Rev. Dr. Cuyler, in the course of a lec-re on "Intemperance," delivered before the oung Men's Christian Association of Brook-n, the other night, said that many women oving in respectable society in New York, ere in the habit of drinking freely during eir morning visits to their milliners and essmakers, and that on one occasion he was ldressed very irreverently by several young dies in a Brooklyn street car, when he dis-vered to his horror and surprise that they ere all intoxicated.

THE Jackson (Mississipi) Clarion assures us the gratifying truth—though deeply regret-g it—that "the fact is too manifest to be de-ed, and too important to be disregarded, that e Republican Party is rapidly extending its mifications throughout the Southern States. all of these States initial movements, more less formidable, are on foot for forming a mpact party to co-operate with that organiza-on. It is a part of the matured scheme of the aders of that party to maintain its ascend-cy, and they have seized the opportunity af-rded by the introduction of the new clause to the elective franchise.

AN ancient sea-dog—in his prime during the reat naval period of the early part of the cen-ry—has just had his body laid under hatches England, his soul, it is to be hoped, following aloft" that of the famous Tom Bowling. He as Sir Philip Hornby, an Admiral in the Brit-h Navy and a "G. C. B."—or Grand Cross of e Order of the Bath. He was born in 1785— four years before the adoption of the Consti-ution of the United States—was a midshipman 1897, and had command of a corvette in 1806. he old boy saw any quantity of service, had bility and courage, and, better still, plenty of fluential friends. Through his mother he in-erited the "blue blood" of the Stanleys, and as a second cousin of the present Earl of Derby.

CRAWFORD COUNTY REPUBLICANS.—A step wards reconciling the Finney and Pettis fac-ons in the Republican ranks of Crawford county, as taken at the meeting of the respective County ommittees on Tuesday. The chairmen of the espective committees resigned their positions, nd Mr. Alfred Huidekoper was chosen in their tead, who is to give notice of the primary meetings and to organize the convention of re-urn judges. The selection of Senatorial dele-ate was left to Erie, and each committee were uthorized to appoint two delegates to the State udicial Convention, which meets June 21st. The Pettis Committee appointed Henry C. Johnson and Harvey Henderson, delegates to he State Convention, with instructions to sup-ort Judge Derickson for the judicial nomina-ion. Colonel S. B. Dick and Colonel O. Keese were selected delegates by the other Committee, nd are uninstructed.

BOTTS AND BENNETT.—John Minor Botts—the heroic Virginian,—in a curious communication to the New York Herald demands satisfaction and atonement for the manner in which his interview with Gen. Schofield was misrepresented by a correspondent of that paper. The correspondent states that Botts was snubbed. Botts says he wasn't, and appeals to the General. The General says the correspondent's statements were false; whereupon Botts requires of Bennett retraction, and in default intimates the adoption of legal proceedings, Bennett's only response is a pathetic letter from the poor scape-goat of a correspondent, acknowledging receipt of his dismissal and asking wherefore he is thus despitefully treated. He declares that he had his information on good authority and has always done the very best he could to advance the interests of the paper on which he was employed. This is not the first time that persons employed by the Herald—after descending to every depth of meanness and running through the whole gamut of unscrupulousnes and falsehood in hopes to please their Metropolitan master—have suddenly found themselves ruthlessly sacrificed to appease the wrath of some threatening victim of their overstrained enterprise and reckless disregard of facts.

PACIFIC AND ATLANTIC TELEGRAPH COMPANY.—The card of the President of the Pacific and Atlantic Telegraph Company, lately published in these columns, announced a further reduction in the cost of telegraphing, in consonance with the design of the company in its organization. This late reduction was made for the accommodation of those who desired to send lengthy dispatches, or in other words to furnish mail facilities at a reasonable advance on mail rates. The wires of the company are now open for the transmission of messages after six o'clock P. M., at the following rates: Twenty words or less, same as ten words previous to that hour; more than twenty words and not exceeding sixty, twice the usual rate for ten words; sixty words and not exceeding one hundred and twenty words, three times the usual rate for ten words, and for each additional one hundred words, or any part thereof, the usual toll for ten words. The Treasurer's announcement of a quarterly dividend at the rate of ten per cent. per annum out of the earnings of the company up to April 1st, would indicate that the management of the affairs of the company is in good hands, and sufficiently indicates the character of the enterprise. The annual meeting of the stockholders of the company will be held in this city on Tuesday, May 7th.

More Territorial Acquisitions.

If one half of the reports from Washington are founded in truth, Mr. Seward is carrying on the real estate business on a grand scale. Notwithstanding the denial that has been put forth, the Washington correspondent of the Boston Post professes to have accurate information respecting another great purchase of northern territory by the United States Government. It is nothing less than the proposed purchase of a large portion of British America. The proposition of Mr. Seward is said to be, to buy up all the territory lying between the longitude of the Mississippi river and the Pacific Ocean; or between longitude 23 and 63 west from Washington, and between about latitude 50 and 70 north. In other words, all British North America lying between the United States and the recently purchased Russian N. A. Territory.

Nor is this all, as we have it from the New York correspondent of the Philadelphia Ledger, who writes as follows:

> Gentlemen who are known to be in the confidence of the Secretary of State, and who have just returned from Washington, say that it is hardly worth while making an ado about the acquisition of the Russian American possessions, as, should certain negotiations which were recently initiated with President Juarez prove a success, the annexation of the whole of Mexico will be un fait accompli before President Johnson's term of office expires. The incredulous laugh and shake their heads at this, and say if there were any such enterprise on foot it would have been heard of before; but these are reminded that nothing was known of the negotiations for the Russian territory until they were actually submitted to the Senate for ratification. Senator Johnson's resolution in executive session to-day would seem to indicate that there might be some fire under all this smoke.

THE EMPRESS OF MEXICO.—The mental condition of the Empress Charlotte appears to give very little hope of recovery. From her features all intellectual expression is more and more vanishing; but her physical health is all that can be desired.

PROGRESS OF RECONSTRUCTION.

Favorable Responses from all the States

The Adjournment of the Senate.

General Herron Confirmed Marshal of Louisiana.

The President to Visit North Carolina.

Special Dispatch to the Pittsburgh Commercial.
WASHINGTON, April 20, 1867.

Reconstruction.

The administration is in constant receipt of letters from all parts of the South, from various public men, relative to the progress of the Reconstruction movement. One writer says that from all that he has seen and heard, there is much less difficulty as to Reconstruction than had been expected. General Pope had expressed himself gratified by his reception, and thinks there will be no serious difficulty in Georgia and Alabama in the execution of the Reconstruction measures. The Intelligencer to-day adds that letters received from citizens of South Carolina also state that reorganization under the acts of Congress will be carried out by common consent, and in the full hope of beneficial results. In Virginia reconstruction is generally acquiesced in. No idea prevails, either in the Carolinas or in Virginia, according to these statements, of suspending the proposed State co-operation in the work of reorganization, in the expectation of a decision by the United States Supreme Court in favor of the injunction applied for.

The Senate Adjourned.

The Senate, after another day and night session, has finally adjourned sine die. The day session has been spent mostly on the New York and Philadelphia appointments, and a discussion of the motion to take up Raymond's nomination and formally reject him. There was barely a quorum present at the night session, and the proceedings of the same leaked out slowly.

Present at the Senate.

Secretary Stanton, Postmaster General Randall and Gen. Grant were at the capitol this afternoon, and the President was there during the closing hours of the session, to facilitate the transaction of business.

Gen. Herron Confirmed.

Maj. Gen. Herron was confirmed as Marshal of Louisiana last night, after a protracted contest. The vote on his confirmation stood 20 to 13.

The President to Visit North Carolina.

It is understood the President has been invited to visit his native place in North Carolina, and will endeavor to be present at Raleigh on the 4th of May.

Cincinnati Postmaster.

Cincinnati has at last obtained a postmaster. The name of Calvin Thomas was sent to the Senate to-day at one P. M., and he was promptly confirmed, without any discussion. He appeared acceptable to both ends of the avenue.

Nomination and Rejection.

The nomination of Greene Adams, of Kentucky, to be Collector of Internal Revenue of the Fourth District, Pa., was sent to the Senate to-day, and rejected within ten minutes.

Military Matters.

Gen. Stewert Van Vleit, of the United States army, has assumed charge of the depot Quartermaster's office in Baltimore, vice Major A. S. Kimball who has been ordered to the Department of Missouri. The remaining vacancies in the regular army of Paymasters were filled to-day by the confirmation of W. H. Johnson, of Cincinnati, and Frank M. Etting of Pennsylvania.

SOUTH AMERICA.

Cholera Among Brazilian Troops--Bombardment of Curupaity---Towns Destroyed--American Mediation not Accepted--Revolt in Argentine Provinces About at an End--Rio Coffee Market.

NEW YORK, April 21.—The steamer South America, from Rio March 26th, Bahia 30th, Pernambuco April 1st, Pana 8th, and St. Thomas 14th, arrived to-day.

A call has been made for 8,000 National Guards of the Brazilian maritime provinces to replace the Argentine troops withdrawn from the Paraguayan war. A large cargo of munitions of war has been sent to the river Plata. Small detachments of troops were also forwarded. One transport had been obliged to return to St. Catherine to disembark the troops, cholera having broken out aboard.

The news from the seat of war reports another bombardment of Curupaity by the Brazilian squadron and batteries. The latter received only trifling injury; that of the Paraguayans is unknown. The fortifications and towns of Santa Maria and upon the Upper Parana had been destroyed by the Brazilian gun boats. More or less firing is kept up along the forts, but no strategic or other movements are made. The Brazilian fort at Curuzu has been strengthened and mounted with heavy guns, so that 2,000 men are sufficient to garrison it, and it is understood a large portion of the Brazilian forces would cross the Upper Parana and march direct on Ascension.

The Paraguayan General Diaz died of wounds received during the bombardment of Curupaity, February 2d.

The Anglo-Brazilian Times says there is no truth in the report of American mediation, and the peace stories were canards.

In the revolted Argentine provinces no further actions had occurred. The Government forces were largely reinforced and the outbreak, it was expected, would soon be crushed. General Mitre reassumed the presidency, and issued a warlike manifesto.

Accounts of the Brazilian cotton crops are favorable. The coffee crop is expected to be fifty per cent. above the average in Parana.

The American emigrants having declared preference for Coritiba, the wish has been acceded to, lands procured and seeds, food and tools advanced, payable in five years.

The cholera, though not of a very severe kind, had broken out in the city of Rio Grande Du Sul, and some fatal cases occurred.

Coffee at Rio was not materially changed in value, except good firsts, which are one hundred reis lower. Sales of the month 165,000 bags, of which 85,000 were for the United States. Good first is quoted at 6,300@6,400 reis.

HIGHLY INTERESTING.

NEW YORK, April 20, 1867.

ENCOUNTER WITH BURGLARS

John Hughes and wife, residing on Monroe street, had an encounter with a party of burglars early yesterday morning, in which the wife was slightly wounded by a pistol shot. Two shots were also fired at the husband, but he escaped unhurt. The thieves secured only some cigars and a ten dollar Fenian bond. John Scully has been arrested on suspicion of being one of the party.

HAD TO PAY FOR IT.

The National Steam Navigation Company was sued for the loss of a trunk by a passenger from Liverpool, and had a verdict for $2,800 rendered against it.

A SWINDLE.

Yesterday an unknown man purchased of F. J. James & Co., Brokers, in Wall street, $5,000 in gold with a certified check for $6,910, the gold to be delivered at the office of Fisk, Underwood & Co., of which firm the man represented himself a member. The gold was delivered, but it was soon learned the certified check was a forgery, and on going to the new street office, no one was found there.

LONG RANGE.

At a recent trial of twenty inch guns, at Fort Hamilton, a range of four miles was attained with projectiles weighing 1,080 pounds.

ON THE PLAINS.

The Herald's Leavenworth special says: Affairs on the plains are assuming an interesting phase. General Thomas has arrived at Leavenworth. General Augur is about to move westward from Fort Phil Kearney with 6,000 men. Eleven thousand Indians are encamped between Forts Kearney and Smith, waiting until grass to commence hostilities, and General Hancock's expedition is in distress at Fort Larned, being unable to move for want of forage.

ADJOURNMENT OF THE LEGISLATURE.

The State legislature adjourned sine die last night.

From Philadelphia.

PHILADELPHIA, April 21.—The large paper mill of Randolph & Dupoise, near Manayunk, was partially burned this afternoon. Loss about $50,000. Insurance not ascertained.

The Typographical Union, of this city, last night elected as delegates to the Convention at Memphis Messrs. Roberts and Mayberry.

Stage Coach Attacked by Indians.

ST. LOUIS, April 21.—The Idaho Statesman says the Indians attacked a stage coach near Fernit's Ferry on the 26th ult., and killed the driver, named Younger, and two passengers named Ullman and Buchee. Three other passengers escaped.

The New York and Erie grain elevator in Buffalo, was destroyed by fire Saturday morning, together with 145,000 bushels of grain. Loss $250,000. Three men were killed by a falling wall.

UNITED STATES SENATE.

Last Day of the Session.

MEDIATION IN MEXICAN AFFAIRS.

Good Offices Offered to France and Prussia.

WASHINGTON, April 20, 1867.

The doors being temporarily opened, Mr. SUMNER submitted the following resolution proposing the good offices of the United States between contending parties of Mexico.

WHEREAS, as the Republic of Mexico, though relieved from the presence of their foreign enemy by the final withdrawal of the French troops, continues to be convulsed by bloody civil war, in which Mexicans are ranged on opposite sides: and whereas, the United States are bound by neighborhood and Republican sympathies to do all in their power for the welfare of the Mexican people, and the obligation becomes more urgent from the recent condition of affairs, where each party is embittered by a protracted conflict; therefore, be it

Resolved, That it is proper for the Government of the United States, acting in the interest of humanity and civilization, to tender its good offices by way of mediation between the contending parties of the Republic of Mexico, in order to arrest a deplorable civil war, and obtain the establishment of a republican government on the foundation of peace and security.

Mr. HENDERSON gave notice that he intended to offer as a substitute, the following:

Resolved, by the Senate of the United States, That in case Maximilian shall see fit, at an early day, to abdicate his authority in Mexico, and signify his desire to withdraw himself and his foreign army, to the end that the civil war be terminated, the Senate would be gratified that the President would tender the good offices of our government to secure at the hand of the republican government of Mexico for the native followers of Maximilian such kind and humane treatment as characterizes the conduct of civilized warfare.

The resolution and proposed substitute were laid on the table and ordered printed.

Mr. COLE, of California, submitted the following, which lies over for consideration:

WHEREAS, A misunderstanding exists between Prussia and France, springing out of the ownership of the Grand Duchy of Luxemburg, and war between these powers is imminent; therefore, be it

Resolved, That the President of the United States be requested to offer its friendly mediation to the end that the effusion of blood may be avoided.

The Senate afterward postponed its time of adjournment sine die, and took a recess from five to eight this evening to act upon nominations.

EVENING SESSION.

The Senate met at eight o'clock. The doors were opened at 9:30.

Mr. JOHNSON offered the following resolutions, namely:

WHEREAS, During the civil war in Mexico the Government of the United States, acting in pursuance of its long and firmly established policy, has refused in any way to acknowledge the Imperial Government, of which the Archduke Maximilian was the head, but on the contrary continued to recognize the Republican Government of that country as the only legitimate Government; and by this conduct has done much to frustrate the attempt of Maximilian and his supporters to overthrow such Government, it is the opinion of the Senate that the Government of the United States should adopt every proper measure to avert unnecessary further effusion of blood, and restore at the earliest moment peace to that now distracted land; therefore,

Resolved, by the Senate of the United States, That the President is hereby requested to offer the contending parties the friendly mediation of the United States, so as to bring the civil war to a termination on terms honorable to both, and to secure to the native followers of Maximilian and all foreign citizens and subjects residing in that country the benefit of the laws of civilized warfare; it being understood, however, that such mediation is tendered with the understanding that Maximilian shall abdicate his assumed authority, and that he and his foreign troops shall leave the country at the earliest practicable day.

Resolved, That the Secretary communicate a copy of these resolutions to the President of the United States.

The resolutions were ordered to lay on the table.

The Senate then adjourned sine die.

TELEGRAPHIC SUMMARY.

A girl named Lizzie Smith, alias McKean, a resident of Jersey City, was kidnapped and outraged by nearly a score of young men, Friday night. Three of the villains were arrested, and the police expect to secure the balance.

Further particulars are obtained regarding the robbery of Paymaster Belknap, in the Brooklyn Navy Yard, and of the capture and identity of the persons arrested. The robbery occurred four years ago, and amounted to $130,000. The robbers have at last been secured. The persons arrested are the most successful and dangerous thieves and burglars living, having all been educated to the profession in England. The following are their names: Phil. Stanley, Young Jack Adams, Jack Wright, William Walton, Bob Smith, Bell Smith, Jas. Buford, and Jack Wright. Stanley was a protege of old Jack Adams, of England, some time since pardoned out of the penitentiary, to which he was sentenced ten and a half years for opening and robbing fifteen Herring safes. He is very wealthy, and did a prominent brokerage business in Wall street. Detectives have yet some hope of ascertaining the whereabouts of the stolen money, unless its identity has been lost. Wright was arrested in South Carolina, where he was largely engaged in cotton planting.

Miss Madeline Henriquez took leave of the stage on Saturday night at Wallack's. She is to be married early in May to Jennings, correspondent of the London Times.

Among the passengers for Europe by the Baltic on Saturday, were Mrs. Price and two chidren, Mrs. Mary Price and Miss Nettie Price, of this city.

Advices from Belize, Honduras, state that the Indian war is ended, and martial law suspended.

Official information states that only ten men were enlisted in Cuba for Maximilian's army, and they without the knowledge of the Cuban authorities. The Captain General has announced his intention of holding to a strict account any person found guilty of aiding directly or indirectly in enlistments, for breach of neutrality laws.

President Johnson has accepted an invitation from the citizens of Raleigh to be present at that place about the middle of May, at the laying of the corner stone of a monument in memory of the President's father. He will be accompanied by Mr. Seward and one or two others of the Cabinet. They will go via Richmond, and may extend their trip farther South.

A negress named Ella Garvin has been arrested in Memphis for poisoning three negroes.

The disbursements by the Government for the week were $2,394,942. The week's receipts of internal revenue were $1,976,942.

The United States at the Paris Exhibition.

From all accounts it seems as if the superintendence of American interests at the great Paris Exhibition has fallen into utterly incompetent hands. Complaints against Mr. Beckwith, the Chief Commissioner, are loud and deep and bitter, and virtually unanimous. It is said he wofully misrepresents the fastest, most enterprising and most energetic people in the world; that he has no executive capacity whatever and is as discourteous as he is obstinate. He is, however, spite of the remonstrances of the other Commissioners—who tacitly decline to act with him—and exhibitors—who fear to trust their fortunes in his hands—sustained by the State Department at Washington, so our countrymen in Paris have to grin and bear the incubus as best they may. Articles for exhibition from the United States are plentiful enough—the place is in fact choked up with them; but there is no satisfactory scheme for their arrangement and no life and activity shown in getting things to rights. In mortifying contrast to our bungling and disheartening delays and dissensions the Russian and Swedish and Danish departments and those of the half-civilized kingdoms of Tunis and Morocco are almost complete and look very splendid and attractive. Even England, traditional bungler that John Bull is known to be, is away ahead of us. Efforts were being made at last advices to get up a grand indignation meeting, at which Mr. Beckwith's immediate removal is to be urgently advocated.

ERRATIC VOX POPULI.—The enthusiasm shown toward the Emperor of Austria, in his passage through Hungary, is a singular phenomenon of human nature. He has been cursed as the oppressor of that ancient kingdom, and the name of Hapsburg has been supposed o be a stench in the nostrils of the Magyars—whom we, simple Republicans that we are, sympathized with in their "aspirations after liberty"—yet, no sooner does the light of his imperial countenance beam on them, when, lo! all sense of grievance and tyranny is forgotten, and the air is rent with "Eljens" for the descendant of Maria Theresa. The same kind of thing would occur in Ireland if Queen Victoria were to visit that country, even though it should be in the very heat of the Fenian excitement. The waves of popular feeling are mighty uncertain; but, no matter how stormy they may be, they generally subside under the influence of a liberal expenditure of oil—or soft soap, or fat gammon, nicely fried down.

THE DUNKARD GOLD SHAFT.—The Valley Spirit, published at California, Washington county, in its last issue, says: Operations at the "gold shaft" have been suspended. It is rumored there has been fraud and that the officers of the "Amber Gold Mining Company" have made a handsome fortune selling shares and do not care to test it even if it pays well. There will be three or four wells sunk on Dunkard, this year, with a view to testing the quartz, &c. Some capitalists propose to sink a well 1500 feet deep in Greene county.

FAYETTE COUNTY CROPS.—The Uniontown Genius says: "We learn from different sections of the county that the prospect for a good wheat crop is unusually promising, and that the prospect for an abundant crop of fruit is equally encouraging. The farmers had been complaining of dry weather for some days, and on Sunday and Monday we had high winds and almost a continual cloud of dust; but on Monday night we had a warm refreshing shower of rain, and everything in nature looks revived and encouraging."

New Text-Books for Schools.

We have before us a new series of school books, on Mathematics, from Primary Arithmetic to Trigonometry. The author of them is Edward Brooks, A. M., Principal and Professor of Mathematics in Pennsylvania State Normal School. The publishers are the well-known firm of Sower, Barnes & Potts, Philadelphia. The series is designated the Normal Series, intimating its adaptation to the gradual and natural development of the mind. We can only offer a brief notice of these new aspirants to favor and usefulness, in the important and extensive field of public and private schools. We begin with the highest:

The subject of Trigonometry is rarely introduced into any schools below the rank of colleges. Only a brief treatise of the subject is given in this series, as yet, and this in the volume on Geometry. Enough, however, is contained in this treatise on both plain and analytical Trigonometry, to give the scholar an insight into it, and a table of Logarithms is appended to aid in the solution of the propositions.

The normal geometry is abbreviated considerably within the limits of most treaties on the subject that have fallen under our notice. The continuity of the dependent propositions we believe is nevertheless maintained. How well the author's claim, to have simplified the methods of demonstration, is sustained, we have not been able to determine by extensive examination. We notice two things, as good qualities of this treatise—practical examples showing the nature and mode of the application of geometry, and exercises for original thought. These last are propositions without their proofs, which are to be furnished by the scholar. We recognise among these some of the theorems, problems and corollaries usually accompanied with their proofs or solutions at length. The suitableness of these exercises, except to the more advanced and mature scholars, may admit of a doubt.

The multiplication of arithmetics renders the introduction of any essential and manifest improvement a very difficult matter, yet there is advantage in having the same things presented in new methods and forms. In the present works the definitions are novel in form; to some of them possibly exception might be taken. "A number is the how many of a collection," does not strike us happy. The examples given for exercise are numerous, which is a virtue in such a book, and well chosen. The four Arithmetics, the Written, the Mental, the Elementary and the Primary, are all good school books. In the Written Arithmetic is contained a short history, with tables and problems, of the metric system of weights and measures. The mechanical execution of hese books is highly creditable to he publishers. And we have no doubt they will have a fair chance, among competitors, for the introduction of this series into the schools of the State.

THE change in English sentiment towards the United States is very remarkable. Mr. Gladstone who while we were in the throes of insurrection, took special delight in speaking of this country as the dis-United States, takes special pains now to indulge in professions of the highest appreciation and most perfect good will. On a recent occasion he paid a glowing eulogy on our financial policy, in the course of which he said:

> "Let us not be ashamed to follow a good example wherever we may find it, or to render a just tribute of admiration to the courage and forethought of the American people, who at this moment are bearing a burden of taxation which both in its amount and in its kind makes their conduct a marvel, because they believe that the true secret of their future power lies in the steady and rapid reduction of their debt. It is really worth while to consider what the Americans have done."

Stating the facts of the rapid reduction of the American debt he continued:

> "I must say that when I see such facts as these I am deeply impressed with the greatness of that people, and with the formidable character of the conflict which this or any other country would have to sustain in any war with America. [hear.] That people have not vainly and idly imagined that the true secret of their strength is to keep up huge armies in time of peace. I believe they have judged rightly in determining that the true basis of their national power is to save and husband their resources in ordinary times and to develop them without stint. So far from acceding to the doctrine of my honorable friend opposite, that we should not reduce our debt. I cherish the hope that this magnificent example of the American people will not be without its effect in this country and in Europe, and that it will shame the nations on the Continent out of that suicidal policy of wasting their ressources in creating and maintaining large standing armies for idle parade or for a more serious and positive danger—the having at hand the ready means of conflict, [hear, hear.] I am sure the prevailing sentiment of the House is in favor of conveying to the people of America, and to their able and enlightened Minister of Finance, (Mr. McCulloch,) our hearty congratulations and our best wishes that he may long continue to apply the same vigorous and prudent hand in wisely administering the resources of his country. [hear.] The true policy in America, as here and elsewhere, is to act with energy and skill in the reduction of the national debt."

THE RIVERSIDE MAGAZINE.—The young people's monthly delight, with its gorgeous cover of scarlet and blue, which Hurd and Houghton publish under the name of The Riverside Magazine, comes to us, with May upon its title-page, radiant and attractive as ever. It is full of interesting and instructive articles on various subjects, entertaining sketches and charming little poems. The papers that will be read with most avidity, will probably be those entitled "The Funny Land of Pluck", "A Musical Pair of Suspenders" and "Monsieur Alphonse."—Mr. Thomas Nast, in his illustrations of the last named and of a fragment, called "The Origin of Leap-frog", worthily maintains his now established and constantly increasing reputation as an artist. Stephens' frontispiece is not so good. He represents a false and feeble school of drawing, which young ladies may think "pretty" and do no harm by imitating; but it is not the sort of thing we want, even in light literary works for children. Other of the illustrations possess a good deal of merit. The number is altogether one of the best yet issued.

CONSOLIDATION.

Letters from the People Pro and Con.

To the Editor of the Pittsburgh Commercial:

Your readers are certainly much indebted to you for a full and correct copy of the Consolidation Act. It is a document pregnant with weal or woe to all within the prescribed limits, and demands the most careful consideration of this community.

The first thing which strikes us unfavorably in regard to it is, that the main purpose of the whole project has been lost sight of. In other words, it looks like consolidation with consolidation left out. The origin of the idea of consolidation was to attain a more important position in the public eye.

It was complained that our wealth and population was not truly presented to the world in our present condition; that the census reports placed us in a class of cities below what we were entitled to, and that people abroad were too ignorant of our geography to know what importance to attach to our suburbs. To remedy this we were to have a grand territorial consolidation of all the cities, boroughs and townships for miles around, but the bill in question, as it has been amended by its enemies, has suffered the fate of another famous bill of the same session—thoroughly perverted from its original design, and left in such condition that, if acted upon, we may not only not get what we wanted, but may actually lose what we have.

It divides the territory intended to be consolidated into three districts, and provides that such of these districts as vote against consolidation shall be left out. Now it is a foregone conclusion that the district north of the Allegheny will vote against it, and from the general expression of opinion on the streets, it is likely the middle district, between the rivers, will also vote against it, and that the district south of the Monongahela will vote for it. The result under the provisions of this act will be that Birmingham and the villages across the river become Pittsburgh, and Pittsburgh herself, or what we have always regarded as Pittsburgh, will be left out. It would not be so bad if the act provided in such contingency for two Pittsburghs, but it does not. So our good old city may lose her name altogether, and suffer the fate of the frog which tried to swell itself to the size of the ox; Limerick and Mount Washington and the other villages over the river will then clothe themselves in her honored name and dignity.

But the loss of name and fame may not be so serious as some others in this bill, which I shall name hereafter, if time and opportunity will permit.

E. Pluribus Unum.

To the Editor of the Pittsburgh Commercial:

Our national inscription will serve as a text to preach on behalf of solidifying into one city the thirty-eight disconnected wards, boroughs and townships in this vicinity. Since the passage of the consolidation act I have been looking into this question in all its bearings upon my own property, the best interests of this neighborhood, and its relation to Western Pennsylvania. I have concluded that the building up of one large city organization here would be beneficial to all these interests, and that I should therefore labor and vote for consolidation. I inquired first as to the proposed area and boundaries. I have carefully examined the county map and also the small outline map lithographed by Singerly & Ciels. I have heard intelligent persons advocate the inclusion of Mansfield, Wilkinsburg, Braddock's Field, Port Perry, McKeesport and Sewickly, and others equally intelligent wish it confined to the two cities and boroughs. After a careful comparison of all that I could hear my own judgment is that the proposed boundaries are about right. Its greatest length East and West is less than nine miles, and its greatest breadth is under six miles. My own calculations indicate its area as between forty-seven and forty-eight square miles, of which nearly five is covered by the bed of the rivers. I therefore assume that forty-three square miles would be the area of the proposed city. Philadelphia contains one hundred and twenty-five square miles, and three times our population. The proportion is, therefore almost exactly the same in both cities.

This little outline map shows it to be fairly proportioned. Wherever possible, natural and political boundaries have been conformed to, and the intelligent commission will undoubtedly run the North and South lines so as to best conform to the demands of the public. I have therefore concluded that the area and boundaries of the proposed city are the very best that could have been adopted. Each one of us who would attempt to run a line to please only himself, would no doubt make certain changes, but perhaps the proposed boundaries are as wise as any that could be adopted.

I confess for one I am not pleased at the submission in regard to each one of these geographical districts, in regard to the adoption or rejection of this bill. In my judgment the originally proposed bill, submitting it to the whole, was the right course. Even this, however, was yielded as a concession to the northern district, and I have no doubt if this question is fairly presented to the mass of the voters that its adoption can be secured in each of these districts. The Union for the sake of the Union has been the watchword of the nation throughout our late terrible struggle. All our religious denominations are praying for Union and unity in christian plans and purposes, and why should not the same philosophy cry aloud for unity and consolidation in municipal affairs?

That triangular point now known as the city of Pittsburgh must, for weal or woe, continue to be the center of business for all the dwellers in this vicinity, through all time to come. We, therefore, are all vitally interested in its good government and welfare. But the growth of improvement is rapidly driving outside of city bounds nearly all those most deeply interested in its good government. Like New York, if things are left alone a few years longer, the city of Pittsburgh will be governed by those who pay a very small portion of the taxes imposed by the City Councils. How many of our leading citizens now reside in Allegheny or some suburban village, who have their stores in Pittsburgh and their manufacturing establishments in some neighboring borough? Now common sense teaches that manufacturers and operatives should have a common interest and vote in the government of one common municipality. Providence, in casting our lot here and giving us common interests, has indicated that we should all be united in one common government. St. Paul's argument that the different members of the same body discharge different functions, but are still all one common whole, is as true now as it was 1800 years ago. No man ever has or ever can answer that argument in favor of consolidation.

Then again, our position in Western Pennsylvania demands that we should consolidate. Go to Washington or Harrisburg for tariff or railroad legislation. Pittsburgh, cut up into small portions, is insignificant; but Pittsburgh, with a voice of two, three, or at no distant day, five hundred thousand inhabitants, has a voice potential in State or National legislature. So, too, in all the thousand relations of life. No one fifty miles away from home ever speaks of himself as anything else than as a Pittsburgher. Let us therefore make the fact conform to the theory—let us unite in forgetting all small matters, and make one whole vicinity, one consolidated Pittsburgh.

The bill, of course, is not perfect—no human legislation is. It is, however, fair to all localities and all interests. The legislature, which meets annually, will grant whatever councils may desire to conform the city charters to any exigencies that may arise. Have faith in your fellow men—your fellow-citizens. The masses are always honest, and mean right, and will in the long run do right. I am myself an outsider—have no property in Pittsburgh—but am willing to trust my own welfare, the interests of my property, my wife and children, to a common city government for weal or for woe, and why cannot you do likewise.

By the provisions of this bill, rural property that can enjoy only a portion of the benefits, is to pay only two-thirds the taxation of city property. Each of the existing city and borough corporations are to pay its pre-existing debt. The new consolidated city is to start free. The City Councils have power to purchase at a fair price and make forever free all the bridges and turnpike roads within the bounds of the new and extended city. Every ward will have a representation in Councils proportioned to its taxable inhabitants. Every citizen, however humble his condition in life, will have the whole power of the municipal organization pledged to protect him in the enjoyment of all his rights of person and property. Your Representatives at Harrisburg and Washington can speak with a voice potential on behalf of the neglected interests of Western Pennsylvania, and if these are unheeded can ask the erection of a new State, of which Pittsburgh shall be the capital.

These are briefly the views of an

OLD CITIZEN OF ALLEGHENY COUNTY.

NEW IRON MILL AT MARIETTA.—The Marietta Register announces that the establishment of a rolling mill at that point may be regarded as a fact, and says: The contract has been closed on the part of the subscribers here, by D. C. Skinner, Beman Gates and J. T. Hart, Trustees, with Wm. H. Brown, J. G. Stevens, B. S. Higley, J. R. Williams, Lewis Gardner, W. E. Williams and J. F. Stevens, from Youngstown, Mahoning county, who agree to erect here immediately a first-class 8-inch rolling mill—the firm being Brown, Stevens & Co. The contracts for the machinery will be made at once, and the erection of the necessary buildings be commenced within a very short time. The mill will be built at Mile Run, just below Harmar, upon the bank of the Ohio river, immediately upon the M. & C. Railroad, on a tract of three acres donated by the Railroad Company, affording of course, the greatest convenience for transportation by rail or river.

Another crevase occurred at West Baton Rouge on Friday. The extent of damage is not yet reported. The greater part of Louisiana is overflowed, and there is much suffering in consequence.

SECOND EDITION.

4 O'CLOCK, A. M.

WASHINGTON.

Forty Offices Yet to be Filled.

An Impeachment Organ on the Situation.

Rumored Purchase of British America Without Foundation.

Gov. Alex. Cumming Confirmed a Collector of Pennsylvania.

Maximilian Still a Prisoner at Queretaro.

Special Dispatch to Pittsburgh Commercial.
WASHINGTON, April 21, 1867.

Offices Unfilled.

The final adjournment of the Senate has left about forty offices vacant. They are mostly confined to collectors and assessors, and small postmasters, and are also mostly in the Western States. The only important offices unfilled are those of Naval Officer for New York and the Consul General of Havana. The President claims the right to fill these by appointment during the recess, as well as the mission to Austria. There are ten candidates for the Vienna mission.

The Impeachment Situation.

The Chronicle, which is the furious impeachment organ, thus states the situation in to-day's issue: "When the Senate adjourned last night, the impression seemed to be almost universal that there would be no quorum in either House on the third of July next. The feeling between Senators and the Executive was comparatively cordial, and the intelligence from the South, promising submission to the terms of reconstruction were so auspicious that very few doubted that the measures of Congress had anticipated and foreclosed all chances of difficulty and dissension."

Purchase of British America.

Within the past few days, the members of the Senate Committee on Foreign Relations have been investigating the rumors relative to the negotiations for the purchase of the western portion of British America, and are fully convinced that there is no truth whatsoever in the recent sensational statements to that effect.

Nominated and Rejected.

General Kilby Smith was nominated last night as Consul General to Havana, and promptly rejected. As he was confirmed only last week as Consul to Panama, the Senate thought he had better hold on to that office.

Mediator Proposed.

The proposition of Senator Cole, of California, that this Government ought to offer its services as mediator between Prussia and France, to avoid, if possible, another European war, was received with considerable laughter in the Senate, and without any debate was promptly laid on the table.

Gov. Alexander Cummings.

The Alexander Cummings confirmed as Collector of the Fourth Pennsylvania District, is the present Governor of Colorado. Representative Kelley, of that District is very much incensed at the appointment, which is the result of a feud between Kelley and Cameron.

Maximilian Hemmed In.

The Mexican Minister to-day received dispatches showing that the published escape of Maximilian to the city of Mexico is untrue. He is still at Queretaro, and completely hemmed in by the Liberal forces.

A Reconstruction Opinion.

Attorney General Stanberry is preparing an opinion on the Reconstruction act, so as to explain if that portion relating to disfranchisement applies to local officers in the States.

A Disappointed Delegation.

A disappointed Cincinnati delegation who came on to fix up the postmastership, but did not succeed, left for home to-night.

Dakota Surveys.

The Commissioner of the General Land Office has just dispatched surveying instructions to Surveyor General of Dakota, making available to that office the recent appropriations for surveys of that district. The Commissioner directs that these appropriations are to be expended in the extension of the surveys along the Red river of the North, so as to include settlements in the Pembina region, near the international boundary. No surveys having been made in that distant portion of the territory, it becomes necessary to extend the parallels and meridians to reach the locality of the Pembina region, which is about two miles south of the international boundary as established in 1823.

WASHINGTON, April 21, 1867.

VACANCIES.

The Senate on Saturday had dwindled down to less than four quorum, and adjourned sine die without filling all the vacancies, which, with (two) exceptions, are in the West thus leaving four offices without post masters in Illinois, and one in Pennsylvania; the latter believed to be Milton, and four or five vacancies in offices of internal revenue in Indiata, Illinois and Wisconsin. No Consul General at Havana was confirmed. Under the tenure of office act vacancies cannot be filled, as they could be previous to the passage of that law, by the President during the recess of Congress. It is said that Charles S. Abel was confirmed as Collector of Internal Revenue for the First District of Pennsylvania, after having once been rejected for the same office. Alex. Cummings having been confirmed as Collector of Internal Revenue for the Fourth District of that State, leaves the Governorship of Colorado vacant.

MEDIATION.

The resolution of Senator Johnson advising and requesting the President to offer to the contending parties in Mexico the friendly mediation of the United States, which was offered in open Senate yesterday, is precisely the same as the one submitted in Executive session on the 16th, and which had been confidentially printed.

THE JULY MEETING.

The Chronicle to-day says: When the Senate adjourned last night the impression seemed to be almost universal that there would be no quorum in either House on the 3d of July next. The feeling between Senators and the Executive was so comparatively cordial, and intelligence from the South promising submission to the terms of reconstruction so auspicious, that very few doubted that the great measures of Congress had anticipated and foreclosed all chance of difficulty and dissension.

FROM RICHMOND.

Speech of Senator Wilson at Orange Court House--Reply of Major Lee--Fair.

RICHMOND, VA., April 21.—Senator Wilson spoke at Orange Court House yesterday. He recounted the events which led to the war, and said that after the close the North had no ill-feeling for the South. The South was submissive, and had the measures now pending been adopted directly at the end of the conflict, the South would have acknowledged that the Government was just and liberal; but when Johnson assumed power, he adopted a different policy, which had brought on all this dissatisfaction. Lincoln had prepared eight conditions for pardon of rebels, all of which met Wilson's approval. Johnson prepared fourteen, which were six too many. He [Wilson] had never favored the $20,000 clause, for he wanted the South, except a few prominent rebels, to be at liberty to go to work. The South had complained of Congress violating the Constitution, and yet upheld Johnson in his violations of the Constitution in restoring States. The speaker was opposed to a black man's party or white man's party. Let all who favor human bondage go together, and all who favor freedom and progress go together. If any rebel had cast aside the delusions, let them come up and join the Republican party.

Major H. Lee, State Senator from Orange, replied to Mr. Wilson. He charged the introduction of slavery upon the North, and said Lincoln did not at first intend to liberate the slaves, and that the Southern people were the blacks' best friends.

Mr. Wilson replied that in a year the North would give the negro suffrage. He said confiscation might follow if the reconstruction bill was not accepted.

The Holly Wood Memorial Bazaar here opens Monday. All the States are represented. The railroads entering the city have put their fares at half price for visitors. A large crowd is expected to attend.

Cotton Warehouse Burned.

SAVANNAH, April 21.—Frisbee & Neason's cotton warehouse was totally destroyed by fire last night. From five to six hundred bales of cotton were burned. No insurance on the building. P. H. Beher loses 300 bales of cotton, which were insured for $4,000. Frisbee & Neason's loss was $40,000; insured for $20,000. A dwelling house adjoining was also destroyed; no insurance. Total loss $100,000. Three firemen were injured, but not seriously.

Sailing of the Peruvian.

PORTLAND, ME., April 21.—The steamship Peruvian sailed at 10:15 o'clock last night for Liverpool.

STATE ITEMS.

A ten thousand barrel oil tank is to be erected in Franklin.

Two new churches are to be erected in Franklin immediately. A new Presbyterian church is now under way, and the Methodists have secured sufficient funds to commence work upon a new building for their use.

Work on the new rolling mill of Alexander, Ashton & Co., at Sharon, is being rapidly pushed forward, and will be completed without delay.

The ticket office of the Erie and Pittsburgh Railroad at Sharon was robbed a few nights since of one hundred and fifty dollars.

The sum of nine hundred and ninety-nine dollars and fifty cents have been contributed by the citizens of Erie towards partially refunding to the family of Col. Jno. W. McLane, the amount he expended from his private means in forming the 83d Pennsylvania Volunteers.

A boot and shoe dealer, J. Speisman, of Titusville, was victimized on Thursday by one J. Lechrist, who passed upon him a forged check for $300, purporting to be drawn on M. H. Avery & Co., of Miller Farm. Lechrist escaped.

Mr. L. P. Thompson, agent of the United States Express company at Petroleum Center has become hoplessly insane.

In Springfield, Erie county, a few nights since, two dogs entered a sheep fold, and out of a flock of sixty-four only three escaped unharmed, the rest being either killed or wounded.

Charles Moore, one of the principal oil operators of Petroleum Center, suddenly left that place early last week. It is estimated that his liabilities are about eight or ten thousand dollars. Among the heaviest losers are: W. H. Faucett, $2,000; Ocean Oil Company, $1,500; Patterson & Dickey, $1,000; while there are many who sustain losses of $500 each.

The Neshannock United Presbyterian Church, four miles east of New Castle, Lawrence county, was destroyed by fire last Sunday morning. Cause of fire, a defective flue.

The first engine used in the oil regions by Colonel Drake, is now employed in running the machinery of a machine shop in Petroleum Center.

Queen Victoria and Her Ways.

A late London letter says: The Queen will not drive through the royal gateway of the Palace, nor has she since her husband died. She will not ride through the royal entrance to the House of Lords, but goes in through the Peers' entrance. She will not wear the Royal robes, acd when she opens Parliament in person, the robes are thrown over the back of the throne, which is a gilded chair surmounted with a gilt crown, and sits on them. She comes to London when duty calls, seldom passes a night in her capital, and has passed less than a dozen in four years. She remains in quiet at Windsor or Osborne. She has no company but what her official position imposes on her. The state apartments at Windsor are all dismantled and are unused—the massive plate is not used, a plain silver service is put on the table—a small, quiet pony and a low-wheeled carriage the Queen uses for her private rides at Windsor, and she seldom, unless duty calls her to London, goes beyond the private park of the Castle. The 100 horses that fill the Windsor mews are seldom used, and the eight creams for state occasions are not driven twice a year.

The room in which the Prince Consort breathed his last is kept with scrupulous care, just as the Prince left it. The ladies say that each night the dressing gown and slippers are put in their accustomed place. The Queen's confidential attendant is a Highlander by the name of Brown. He takes all the orders from the Queen—and bare-legged messengers come from the "Queen's Apartments" at Windsor when Her Majesty is to be served. This Brown has been the occasion of a world of talk. He is about fifty—tall and spare—with great assurance, and attends the Queen to and from London. Great attempts have been made to dislodge him, but all in vain. The Queen has a will of her own. Brown was the Prince Consort's Highland servant, and was held by him in all honor. While Victoria rules England, Brown will rule the Royal household.

The attempt to compel the Queen to dwell in London and make a show of royalty has about been abandoned. The coming of the Princess was hailed with rapture—so young, so amiable, so elegant, so graceful and courtly—withal the daughter of a king. She met with a warm welcome, and seem to promise a revival of the splendors of royalty. Her sickness is lamented—her death would be greatly deplored.

Refusing to play the Queen, her Majesty has never forgotten to play the woman. Her visit to Balmoral and Osborne is a benediction to the poor. She will allow no unseemly honors. She drives her own pony wagon. Daily she goes her rounds, with her carriage filled with little gifts for the sick, the infirm, the poor. These she distributes with her own hand. By the bedside of the aged and neglected the Queen kneels and prays to the Sovereign of all. To one she daily reads, to another she presents some needed comfort; and she is especially tender to the little ones who are in sorrow or want. All through the highlands she is regarded as an angel of mercy.

Her favorite room at Windsor overlooks the tomb at Frogmore, where Prince Albert lies. He was a benefactor to the poor, and the work he began she seems resolved to finish. The night he died the Queen called in a young widow who was in her household to sit with her, and when all was over the Queen said: "No one now lives that can call me Victoria."

Neglecting no duty that the nation has a right to ask at her hand the Queen has taken a public leave of mere display and laid aside the mere baubles of royalty. To good acts and deeds of mercy she seems to have consecrated her time and fortune. Her benefactions are princely, but mainly among the poor and to institutions calculated to bless poor and neglected children. Mr. Peabody's donation in London touched the Queen's heart, because it carried out a work to which Prince Albert devoted the closing hours of his life—the attempt to make comfortable the homes of the industrious toilers in the land.

Fires.

Yesterday morning about half-past eleven o'clock, a fire broke out in a stable attached to the Farmers' Inn, on the corner of Fourth and Ferry streets, owned by Messrs. Ferguson & Morgan. An alarm was given from Box No. 5, at Eagle Engine House, and the firemen arrived promptly on the ground, and succeeded in saving the adjoining building. The stable was destroyed. About eight hundred dollars will cover the loss.

About noon yesterday, a fire broke out in the dwelling house of Mr. Julius Kirmse, located on Beaver street, Fifth Ward, Allegheny, (formerly Manchester), and a short distance west of Nixon street. The fire was caused by the accidental overturning of the stove in the kitchen, the fire in which communicated to the floor, and the house was in a short time in flames. A general alarm was given by the citizens, and in as short time as possible the Allegheny Fire Department arrived at the scene. The only means obtaining water was from some ponds near by, but the firemen managed the flames so well that the building was not entirely destroyed, and the adjoining frame buildings were all saved. The building was a new, two-story frame and had just been completed a short time since. Most of the furniture in the house was saved. The building was owned by Mr. Langdenheim, of this city, and cost twenty-six hundred dollars. It was partially insured. In this connection it is suggested that the Allegheny Councils should purchase an engine for the Manchester district, as the scene of this fire yesterday is nearly two miles from any engine house.

The loss by the destruction of the locomotive shed of the Pan Handle Railroad, in the Ninth ward, early Saturday morning, amounts to about ten thousand dollars. The locomotive damaged was the second one turned in this section of the State by the Pittsburgh Locomotive Works.

A number of incendiary fires occurred in Butler county last week. The stable attached to the Orphans' Home, the stable at the toll-gate, and two other stables were destroyed.

FORTY-ONE new members were received in the First Methodist Church, Fifth street (Rev. Alex. Clark's), yesterday morning, making upwards of eighty in all within the past few weeks. The congregations are increasing every Sabbath, and this church is now one of the most active and flourishing in the city. A large proportion of the new members are heads of families.

SEVERELY INJURED.—A man named Charles Winters was knocked dowd by a buggy on Saturday and run over. He was severely injured. It it alleged that the accident was the result of carelessness by the occupants of the buggy.

The Daily Commercial

MONDAY, APRIL 22, 1867.

☞ THE DAILY COMMERCIAL *is circulated in all parts of the State, in Western Virginia, Ohio and adjacent States, and without comparison, is the best advertising medium in Pittsburgh.*

☞ THE COMMERCIAL *gives the only complete reports of the local markets published, and is accepted as authority by dealers at home and in all the principal cities.*

☞ THE COMMERCIAL *is sold everywhere in the cars; and by News Dealers at all the principal points. Price five cents a copy.*

☞ THE COMMERCIAL *solicits local correspondence, giving events of interest, concisely written; also, of improvements, inventions and personal movements.*

☞ THE COMMERCIAL *is the only paper in Pittsburgh that uses the telegraph freely. Its special dispatches are from correspondents selected for their intelligence and reliability.*

THE *Constitutionnel*—Parisian exponent of the French military spirit—is doing the best it can to excite the public mind to the war pitch on the subject of the acquisition of the Duchy of Luxemburg. Alarm is taken by the conservative and republican journals alike, and one of them, the *Union*, wants to know if its fire-eating cotemporary, for the sake of doing something to spite Berlin and BISMARCK, would set all Europe in a blaze.

AT the meeting of the Allegheny County Republican Central Committee, on Saturday, the first Tuesday in June was designated for holding the Convention to select delegates to the State and County Conventions, and the first Tuesday in September for the Convention to nominate candidates for the Legislature—the primary meetings to be held on the Saturday previous to those days. This action will, no doubt, be cordially acquiesced in by the Republicans of the county.

THE telegraph, with an owlish gravity that has certainly never been equalled since the days of my Lord Thurlow's wig, confidentially and mysteriously informs us that "the Czar will, at the request of Prussia, soon make some observations on the Luxemburg question." The drift of these awful utterances is expected to be an opinion "as is an opinion"—to wit: "That by the dissolution of the German Confederation the treaties concerning Luxemburg are not abolished, and she also will express her opinion that the cession cannot take place without the consent of the great powers." There's a chunk of diplomatic wisdom!

THE situation in Europe, spite of the oracular fragments of diplomacy with which the telegraph is made to administer doses of soothing syrup to the Stock Exchange, grows really less reassuring every day. It is now stated that Prussia has forwarded a strong note to Napoleon, asking the reason of his continued military preparations, and has also sent a Bavarian agent to Vienna to feel the way toward an alliance with Austria. The cause of this particular selection is to be found in the fact that Baron Von Beust, the present Prime Minister of Francis Joseph, was formerly Bavarian premier, and may, perhaps, be considered the better open to approach from an old political associate.

THAT mysterious REUTER, after startling us with rumors of a proposed Prusso-Austrian alliance, suddenly turns the rose-colored side of his telegraphic kaleidescope toward us and, behold, everything is once more serene. This time we are assured by "a dispatch from the Berlin agency of the the Associated Press" that a plan for the solution of the Luxemburg question has been submitted to France and Prussia by the other great powers; that NAPOLEON has signified his willingness to adopt the suggestions offered, and that Prussia has not yet replied. Those last five words are probably the little bits of broken glass that are going to slip over the beautiful design and suddenly change its whole appearance.

OUR NATIONALITY.

The recent starting of a movement by French citizens, for securing certain political ends, is suggestive. They take occasion for their proposed organization, from the success which they say the Germans and the Irish have had, in getting their place of influence in American politics. What special rights and privileges are contemplated in these cases we are not informed. We presume our naturalized citizens do not anticipate the enjoyment of more advantages in the field of American politics than native citizens enjoy. And we are at a loss to conjecture what the French citizens expect to attain in a political way, by forming an organization based on their former nationality, as natives of France.

We remember that some years ago, when native Americans organized politically under *their* nationality, in order to secure political ends, there was something of an outcry against it by citizens of foreign birth. The pertinacious adherence, after naturalization, to the old European nationalities cannot be regarded as less objectionable. Among citizens rendering allegiance to the government of the United States, the maintenance of separate, and especially of relinquished and foreign, nationalities cannot be advantageous to the process of assimilation into our homogeneous population. And when separate nationalities are the distinctive features of political organizations and movements they are to be regarded with some degree of disapprobation.

There is nothing under the legitimate operation of our Government, laws or political parties, to hinder a naturalized citizen, whether of French, Irish or German nativity, from enjoying all the privileges and immunities of citizens. And, therefore, there is no need of the maintenance of their former national feelings or predilections in the politics of this country. Nor, in truth, is there propriety in it. The disowning of former allegiance, on becoming a naturalized citizen of the United States, includes, or at least implies, a relinquishment of all the peculiar opinions connected with it, so that, from that point forward, no nationality shall be recognized as imposing any political obligation, or as conferring any political advantage, except that of the United States. Theoretically, all American citizens are Americans, and it is not in accord with the theory to have, in our politics, any recognition of French, German, British, Norwegian, or other foreign nationalities, or to seek special advantages under names or organizations connected with them.

THE great *desideratum* at the present time in the South, says a Southern journal, is "intelligent labor." This we take to be a tribute of honor to emancipation. And we esteem it the more valuable, because it is involuntary and spontaneous. Under the *regime* of slavery, intelligence was deemed injurious and unsafe for the working class. Then, the utmost caution was employed to prevent the slave from becoming intelligent. To teach him to read, to give him a book or a newspaper, or in any way to extend his knowledge and enlighten his intellect, was a grave offense punishable by law. Intelligent labor was not desired. It was declared, a thousand times over, that not negro labor, but slave labor was essential—slave labor under the conditions mentioned, of ignorance and intellectual darkness—and that cotton, rice and sugar could not be supplied without it, therefore, not only as a change of sentiment, but also as a tribute to the new order of things, that the Southern people now regard intelligent labor as valuable and desirable.

SOME of the Democratic journals, of the more radical and destructive sort, are untiring in their efforts to poison the minds of their readers against the government. A little while ago they appealed to the bad passions of men, in threats of violence and war. Now they appeal to the sordid and avaricious disposition, and inculcate the falsity, that the taxes are unnecessarily heavy, and that the public funds are extravagantly spent. Not satisfied with the efforts of four or five years in the interests of a wanton and wicked rebellion, they now direct their incendiary speech to the excitement of hostility to the government among their Northern readers. It seems as if they were bent on realising the predictions of their rabid Southern allies, that the next war would be in the North, and that between the Democrats and the opposite party. The insane fanaticism of some of the partisans of the old and once respectable Democracy knows no limitations of truth or decency. Of course, there is a class of Democratic journals to which these severe strictures do not not apply. But the utterly reckless and destructive class, the class that has not a true American element in all their politics, the class that makes a virtue of misrepresenting everything done by Congress and of appealing to the vilest of passions against it, is, by no means, a small class.

Clean Markets.

The place, in Pittsburgh, where one encounters the most horrible "compound of villainous smells," is the place where the people go to buy their food. If there is a kitchen within the bounds of the consolidated city, that is not kept in more tidy condition than the market where all kitchens get their supplies, we do not at all envy the boarders. In an atmosphere loaded with indiscribable odors of the strongest kind, the meat is hung up for several hours—long enough to be thoroughly penetrated by it. And on going up the crowded, unventilated rooms above, the smells, to say nothing of sights, are infinitely more disgusting.

We shudder to think how it will be in the heat of summer, especially if the city, as is most probable, should be visited with cholera. Is there no possibility of having the market kept in a cleanly and healthy condition? Nothing more imperatively demands thorough reform. Long use does not make it safe, although it may make people unobservant of the danger. The windows of the upper rooms should be always open on market days; water should be used more freely throughout the whole establishment, and the foul collections of stuff offered for sale as food in some parts of it should not be expelled altogether.

THE NEW COLLECTOR OF PHILADELPHIA.—Colonel Joseph W. Cake, confirmed by the Senate on Thursday to be the Collector of the port of Philadelphia, is a highly esteemed citizen of Schuylkill county. He is President of the Farmers' Bank of Schuylkill county, located at Pottsville, and owner of the important town of "Augusta City," on the Susquehanna river. Colonel Cake was a member of the Democratic party until 1860, when, in company with his brother, Gen. H. L. Cake, now a member of Congress, he aided in organizing a Douglas party. Since that time he has generally acted with the Republican party. When the war broke out he and his brother aided liberally in equipping the first volunteer corps that appeared in Washington. As a tribute to his fitness for the position, it is mentioned that Colonel Cake was recommended by Senator Buckalew, Democratic Senator from this State.

ALLEGHENY COLLEGE, MEADVILLE.—The catalogue of Allegheny College for 1866-67, just issued, shows there is in attendance at present one hundred and fifty-three students—seven in the senior class, fourteen in the junior, fifteen in the sophomore, thirty-nine in the freshman and seventy-eight in the preparatory. The College and Society Libraries contain upwards of ten thousand volumes, embracing many rare and valuable works. The close of the spring term and annual commencement will take place on the 27th of June.

THE LUMBER TRADE.—Five men, in three days of last week, run for R. Rulofson from the mouth of Mill creek to the mouth of Clarion river, one million feet of square timber. This is considered extraordinary work. The Columbia *Herald* says: The Susquehanna is in fine rafting condition, and there are about two hundred rafts lying at our wharves. From indications the trade will be larger than usual and the prices will not vary much from those of last year. Some thirty or forty rafts, principally timber, pass our borough every day for ports below.

MAP OF SONORA.—Messrs. Cummings and James Cherry, geologists and mining engineers, of Pittsburgh, have just issued a "Traveling and Military Map of Sonora," taken from actual surveys, made under the auspices of the Liberal Government of Mexico, and by whom the map was promptly adopted. The country of Sonora will probably soon possess great interest to the people of the United States, and such a map as that of the brothers Cherry will be found very useful for reference.

EIGHT HOURS' WORK WITH EIGHT HOURS' WAGES.—The Directors of the Chicago & N. W. R. R., have decided to inform men in their employ that after the 1st of May any of them choosing to do so can restrict their hours of labor to eight, a proportionate reduction in wages being made therefor. It is expected that a notification to the same effect will be issued on the railroads centering in Chicago. The officers of the city railway, south and west divisions, have decided to make the same offer to their employes.

AN unsatisfactory feeling prevails in English trade circles, amounting to general distrust. Dealers and capitalists are timid, having had their resources in some instances seriously impaired; and this knowledge, says the London *News*, combined with the general slackness of business, and with the difficulty of effecting sales of goods, both at home and abroad, probably explains in some measure the vague rumors now prevailing of mercantile difficulties in the home, foreign and colonial trades.

THE committee of the shareholders of the Pennsylvania Railroad Company, raised at the last annual meeting to investigate the affairs of the company, we understand, are diligently engaged in that duty, and an elaborate report, covering all the complaints, may be expected from them. One of the first objections to the policy of the Pennsylvania Railroad Company was the pro rata question, which will be examined by the committee.

FORTUNE'S FROLIC.—A young man named Lawrence, who has lately had to sue in an Illinois court of law *in forma pauperis*, because he could not give security for costs, has just fallen heir to an estate in England worth $600,000. He is described as an amiable young man, who lately supplemented a divorce from his first wife by marrying a widow.

THE Hon. A. K. McClure, the veteran and distinguished politician of our State, will summer on the Rocky Mountains, whither he leaves early next week, for the benefit of the health of an invalid member of his family. He will be accompanied by his wife. Virginia City, Montana, is their ultimate destination, which they expect to reach via Salt Lake, Denver, &c.

THE confirmation of Reed as Postmaster at Toledo has produced a sensation there. Toledo is in Ashley's district in Ohio, and he had succeeded in having three previous nominations of soldiers rejected, and has declared that no one should be confirmed without his recommendation. Mr. Reed was confirmed, notwithstanding Ashley's earnest protestations against the confirmation.

AN Albany correspondent of the New York *Post* classifies the members of the Legislature under the distinct heads of the corruptible and the incorruptible. Of the thirty-two Senators he gives the names of fifteen he regards as incorruptible, and of the one hundred and twenty-eight members, thirty alone he regards worthy of that designation.

THE Republican Congressional Campaign Committee have agreed that one of their number should remain in Washington permanently, and act as Chairman of the Executive Committee in charge of the Southern Republican campaign. Representative Broomall is to act during the month of May, General Schenck in June, and Senator Chandler in July.

PROGRAMME CHANGED.—A few years ago one Robert Toombs, of Georgia, prophecied that, somewhere about the present time, he would call the roll of his slaves on Bunker's Hill. Instead, however, of his doing so, Senator Wilson, of Massachusetts, is calling the roll of his New England ideas all through the cities of the South; while Toombs—by the way, where is Toombs?

EVERY day the Cable has honey for the Bears and sugar for the Bulls. For the former it likewise has a due admixture of aloes, and for the latter a sufficient quantum of gall. The pleasurable excitement attached to this kind of thing cannot be over-estimated. It is the bitter-sweet that forms the very spice of life.

AUSTRIA is said to be too poor to send anything to the Paris exhibition but specimens of the many beautiful kinds of woods grown in the Empire. It is not stated whether the heads of any of the Hapsburg family are included in the collection.

THE Baltimore and Ohio Railroad are competing sharply for freight business, and have placed upon their road a Lightning Express freight train, which will deliver freight here of the first and second class, from Philadelphia and New York, on passenger train time.

GENERAL INTELLIGENCE.

A letter dated Florence, April 3d, says: The great wave of American travel rises higher and higher until Italy is nearly submerged. The newspapers tell us to-day that yesterday the train for Venice was not got off until much after the usual time, such was the throng at the station of American and English travelers, with their mountains of luggage.

English visitors to America in these days tell wild stories of the prices they were obliged to pay for many things, especially clothing and cab-hire. A handsome suit of clothes in London costs from fifteen to twenty-five dollars. A man may dress well enough hats and boots included, for £3 15s—say eighteen dollars. An Englishman adds the duties, but he cannot figure up the costs in America. So a lady buys an elegant silk dress in London for from five to fifteen dollars, and she cannot account for the prices she hears her American friends talk about.

The French Government has carried its politeness towards foreigners to such an extreme as to refuse the authorization to play a drama called "The War in America," by Messrs. Malespine and Maret, till the Exhibition is over. The authors, who do not take sides in the piece, although their sympathies were for the Union and against rebellion, say that the authorization was positively refused because the susceptibilities of some people favorable to the rebellion might be hurt.

If the French Press be not free by law it at least takes more liberty than formerly. M. Emile de Girardin's paper ventures to say: "France buying Luxemburg after having been able to conquer the Rhine in 1866, has the effect of a hunter, who, failing to kill anything, stops at a market on his way home to buy some game. And to think that M. de Bismarck even contests the purchase of the false game."

Advices from Lake Pepin state that the navigation of the Upper Mississippi river will be resumed to St. Paul early this week. Lake Pepin, on the Mississippi, and the Straits of Mackinac open at about the same time; at least there are but a few days' difference.

Petroleum has been discovered in Italy, and four different associations have been formed for working contemplated wells. The King of Italy is said to take a great interest in these petroleum discoveries, and the Italians will no doubt soon rejoice in a shoal of bogus oil companies.

At the Waterford, New York, Arsenal, the Gatling gun, which is fired off by the turning of a crank, and is said to keep forty-six hundred balls in the air all the while, is now on exhibition. The gun is to be used against the Indians on the frontier. There were a good many of these contrivances in General McClellan's army, but in no force. It was contended, however, they had not a fair trial.

A party of ladies and gentlemen are on an excursion to the Rocky Mountains, under auspices of the managers of the Union Pacific Railroad. They arrived in Chicago on Thursday, by special train from Albany—quickest time on record; came into Chicago from Detroit, *via* Michigan Central road, at fifty miles an hour.

The theatrical receipts in Chicago for the first quarter of 1867, were $74,309. The last season Ristori averaged $3,500 for each performance.

The gas company of Madison, Wis., used the coal of the Valley Coal company of La Salle, for a few days, for the manufacture of gas, and the result was that the stench accompanying the gas was unbearable. The whole city became so filled with sulphur, or something else, that the company was compelled to throw aside the Valley coal.

A projected line of steamers to run between Washington and Norfolk, via this point, is now exciting the attention of the mercantile community of Norfolk, the measures are being actively devised by business men, which will insure the success and support of the steamers when they commence running.

It is well known that the liberty of the Press is much greater in Italy than in France, or in almost any country on the Continent. Indeed, it is nearly all that could be desired. Actions for libel are by no means uncommon, but neither the editor nor proprietor of a newspaper is cited to appear in court to answer to charges.

Within a few weeks the citizens of Cincinnati have contributed about $8,000 for the assistance of people in the Southern States who are in destitute circumstances.

In Pomeroy, Ohio, on Friday evening last, a fire broke out in the upper story of the Coal Ridge Flouring Mill of Messrs. Nye, Williamson & Co., and raged for two hours before the citizens succeeded in confining its ravages. The building was a large frame, and the flames rapidly extended to the adjoining buildings. The extensive foundry and machine shop of Messrs. W. H. Clark & Co. were entirely destroyed, besides seven dwellings and a building used for school purposes. Total loss, $100,000.

The annual report of the Michigan Southern Railroad gives the total earnings for the year ending on the 28th ultimo at four million six hundred and seventy-three thousand one hundred and ninety-three dollars. In May next the offices of the General Superintendent, Cashier, Auditor, General Passenger Agent, and General Accountant will be removed from Toledo to Chicago.

Advices from the West Coast of Africa states that war has broken out between two opposing tribes of savages, in which several of the New Calabar tribes were made prisoners by their enemies and roasted and eaten by them.

It is stated that although more than three months have elapsed since the explosion of the Oaks Colliery in England, little progress has as yet been made in extinguishing the body of fire raging at the bottom. All the shafts have been sealed up.

The building fund of Yale College now amounts to $1,500,000. It is designed at an early day to erect an entirely new set of brown stone dormitories, a memorial chapel, the Peabody geological museum and a new divinity hall.

The Union Pacific Railroad, Eastern Division, is about to commence operations on the Cache La Poudra at its junction with the Platte. A party of hands has already left Denver for the spot. Several parties have gone to cut ties on the Black Hills and further west.

Franklin Hazlewood, an aged cripple, of Bedford, Trimble county, Ky., has reported that last Friday, he and his two sons were taken from their house, by three men, tied and unmercifully whipped. They assert that their Union sentiments provoked the outrage; and a detachment of soldiers have been sent to investigate the affair.

Troops are moving out upon the plans in numbers that indicate a decisive campaign. Twenty thousand troops are to go to the country north of Platte river and east of the mountains.

A Central Park of 500 acres, in which the whole population of the city may move and bustle, without being cramped for room or confined as to air, is recommended, and a belief stated that the increased taxes derived from the increased valuation of property in its vicinity would make its cost a profitable investment.

An evil-tempered old man, named Patterson, a miner at Minersville, on the Chicago and Rock Island Railroad, attempted to kill his two sons, on Friday. They escaped, and he then deliberately wrote his will, shot his dog, which he asked to have buried with him, and shot himself.

The "cussedness" of the fathers is developed in the children, at an early age, in Tennessee. Last Saturday, two boys, each about eleven years old—one a son of Judge Reeves, the other of Dewitt Moseby—quarreled in Somerville, Fayette County, and young Moseby shot the other, inflicting a wound of which he has since died.

PERSONAL.

—Mrs. Tyler, widow of the late ex-President Tyler, is now on a visit to the Virginia Peninsula, with the view of seeking the improvement of her plantations and estates on the James river. She will visit the Davis family and the village of Hampton, for the purpose of renewing old acquaintances and friendship.

—Signor Pollini, who was captured a short time since by Papal brigands, has been set at liberty. He reports that he experienced harsh treatment only for the first few days, but was afterward treated very kindly. He says that the brigands repeat the rosary every night before going to bed. On leaving he gave them his watch chain as a souvenir, and got a prayer book from them in return.

—That nothing may be wanting to the honor and glory of M. de Bismarck, our tailors have invented the *paletot Bismarck*. So that soon we shall see Frenchmen and Austrians alike compelled by fashion to wear the Bismarck overcoat. Its principal recommendation will probably be that thieves will not be able to annex it.

—M. Mercier, late French Minister at Washington, now French Ambassador at Madrid, has been authorized by imperial decree to take the title of Baron de Lostende. Mme. Mercier is the only child of the deceased Gen. Baron de Lostende, and the name will thus be revived and perpetuated.

—The following incident is related in a Paris letter: "An American who is now here, and who claims to be the most adroit man in the world in the handling of the musket and bayonet, went the other day to seek an engagement at the Paris Circuses, offering to fight in the arena (with wooden bayonets) against five of the best musket men in the French army, all at once, one against five. The director of the circus said, 'No, I can't do that; but if you will dress up as a French soldier and whip five soldiers dressed up as Americans, I'll give you an engagement!' The Yankee retired in disgust, and at last accounts was still swearing."

—Gov. Pierpont has been making a brief visit to his former residence in West Virginia.

PETERSON'S
CORN AND BUNION OINTMENT,

Is not only a relief, but a radical cure for those pests of the feet. Mr. J. W. Barker, the Market street Dry Goods Merchant, says Peterson's Ointment removed the pain almost immediately, and ultimately removed the corns from his feet.

Try it, and Relief is certain.

COMPOUND
Charcoal Biscuit,
OR
ANTI-DYSPEPTIC FOOD.

Composed of recently Calcined Willow Charcoal, &c., combined with Graham Flour.

On account of the difficulty and unpleasantness of taking Charcoal, it has not hitherto been employed, either by physician or patient, as much as its valuable medicinal properties demand. This objection is now overcome, as these Biscuits are not only free from disagreeable taste, but are more palatable and highly nutricious.

RECENTLY CALCINED WILLOW CHARCOAL

Is a powerful Disinfectant and Absorbent, and when administered internally is a valuable remedy for Heartburn, Waterbrash, Acidity of the Stomach, Nausea, Eructation, Constipation and other forms of Indigestion. It is employed in three complaints with the most favorable results by eminent physicians, both in Europe and America. Amongst others, M. Belloc found it especially efficacious in Gastralia, &c., and his observations were confirmed by the French Academy of Medicine; other noted men recommend its use, for whose opinion see Dispensary, &c. These Biscuits should be taken three or four times a day, and may be used at meals, in place of ordinary bread. For infants, soften one or two in milk or water, and give to prevent Acidity of the Stomach, Flatulence, &c.

N. B.—Persons suffering from Fetid Breath, arising from disordered digestion or decayed teeth, will find these an effectual and pleasant remedy.

SOUTHWEST
PACIFIC RAILROAD CO.,
SEVEN PER CENT.
First Mortgage Bonds.

$2,000,000 in Coupon Bonds
of $1,000 Each,

TWENTY YEARS TO RUN,

Principal and Interest Guaranteed by the Atlantic and Pacific Railroad Company,

And secured by property valued at $7,500,000, consisting of their completed road to the Gasconade river, 127 miles from St. Louis, and 350,000 Acres of Rich Agricultural and Mineral Lands on its line.

This road passes through a country rich in agricultural resources and in minerals, and particularly so in iron and lead; the iron ore of the Southwest Missouri being the purest known, ranging from 60 to 90 per cent. of pure iron. Rich and extensive deposits of specular oxide and red and brown hematites abound all along the line of the road and on the Company's lands in greater quantities than the total iron deposit of any State in the Union, and a large business is now being inaugurated in freighting iron ore for the Eastern furnaces, the vast excess in yield of this over other ores paying the differences in cost of transportation.

By a provision of the mortgage, when lands are sold to the amount of $40,000, it is to constitute a fund for the redemption of a like amount of bonds, which are also received by the Company at PAR in payment for land. This land is now being disposed of at rates from $5 to $40 per acre. The climate is remarkably salubrious, and the mean temperature the same as in Virginia, the winter being short and mild. For particulars respecting lands, address Colonel A. ALBERT, Land Agent, at St. Louis, Mo.

The Company has been recently merged with the Atlantic and Pacific Railroad Company, having a land grant of 55,000,000 of acres, thereby adding to the fullest to the security of these bonds.

The road of the latter Company, when completed, will form a direct and continuous railway from St. Louis to San Francisco, much shorter and of vastly easier gradients than any other route.

Of the present issue of bonds, a limited amount is now offered for sale at the low rate of 80 per cent., subject to advance at the option of the Company.

For further particulars apply to

WARD & CO., Bankers,
NO. 54 WALL ST., NEW YORK.

☞ Or to the undersigned, who are the authorized Agents for the sale of the above Bonds in this city, and having made a thorough examination into their merits, we would respectfully recommend them to our friends and capitalists as a safe, reliable and good paying investment.

RIGHTS FOR SALE. 2p

NOTICE—TO THE BONDHOLDERS OF THE ERIE CANAL COMPANY.—By an act approved March 15th, 1867, the Erie Canal Company is authorized to enlarge their canal to such size as they may deem expedient.

The Act authorizes the increase of the capital stock to $1,500,000, and authorizes the Company to receive in payment for subscriptions to stock any bonds, judgments or other indebtedness of the company. The act further provides that "When the present indebtedness of the company or three-fourths of the same shall have been converted into capital stock, the said company is hereby authorized to execute a mortgage of the said canal, its rights, privileges and franchises to their trustees, and issue coupon or other bonds to the amount of one million of dollars, bearing seven per centum interest per annum and not running over forty years, and secured by the mortgage aforesaid, to be expended by the said trustees under the direction of the Board of Directors in the enlargement of the said canal, and with power to sell said bonds at such prices as the Directors may deem expedient."

The company proposes to enlarge the canal to pass boats of from 200 to 250 tons burden, and as there can be little doubt of the canal, when enlarged, paying the interest on its present debt and stock, in addition to the interest on the new bonds, it is hoped the Bondholders will promptly convert their bonds into stock, to enable the company to proceed at once to make arrangements for enlarging. The stock books of the company will be open for the conversion of the present bonds into stock, on and after the FIRST DAY OF MAY, 1867.

By order of the Board.

The Daily Commercial

THE CLOUDS.

Dark and heavy-bosomed clouds
  Leaning on the streams of wind,
Pressing on in frowning crowds
  Throngs before and throngs behind,
Sweeps the high and empty air!
  Rock nor barrier rises there.

O, descend not for the bird
  That delights to ride the waves!
Have ye not already heard
  Of those black and whirling graves,
Seas on gallant vessels piled,
Screams of fear and sorrow wild?

O'er the dim mid-ocean parts,
  Many a son and father sails;
Isle and continent have hearts
  Anxious at the growing gales.
Chain those mighty reckless wings
Which the flying tempest swings!

Change and lie in softer light;
  Drop the glittering rainbow showers;
Bring again the snowdrops white,
  Maiden heralds of the bowers;
Let the spring with happy eyes
See her own bright suns arise?

—*All the Year Round.*

RAILWAY MATTERS.

The Cross Cut Road connecting Buffalo directly with the Pennsylvania oil regions is rapidly approaching completion. The construction train has been run from Brocton to Mayville, and the road is nearly completed from Sherman to Corry. Passenger cars will be run on the entire road by the middle of May.

It is stated that the Reading Railroad Company have commenced work on the proposed new railroad from Port Clinton to Topton Station on the East Pennsylvania Railroad, in compliance with their agreement with the Atlantic and Great Western Railroad Company. The new road is part of the through route of the latter company to New York.

The Erie *Dispatch* has the following opinion of a good road: A trip over the Cleveland and Erie Railroad proves that its high reputation is well deserved. With the train gliding along at the rate of thirty miles per hour there is no jolting or bumping, but only a pleasant tremor—not enough, however, to disturb the traveler in reading the finest type, and enjoying, in its perfection, the luxury of travel.

The Pithole *Record*, in referring to the late meeting at Tionesta relative to the Tionesta Valley Railroad says: The end aimed at is a railroad from Tionesta to Sheffield on the Philadelphia and Erie Railroad by way of the Tionesta Valley, opening up a thickly timbered region and a short cut route. Committees were appointed to look after the right of way and solicit subscriptions to the capital stock. The committees have gone to work with a will; but there seems to be a doubt whether the new road shall be called a child of the Allegheny Valley or the Pennsylvania Central.

A LATE London letter speaking of the miseries of England, in connection with a recent large gathering of destitute people, says: "The juestion at Westminster was how to dispose of i few millions of surplus revenue—that at the East End was how to get bread for 40,000 idle and famishing people. A procession of four or ive thousand ragged wretches gathered from Poplar, Bethnell Green and Wapping, and, preceded by a miserable fife and drum, marched hrough the city and the Strand to the palaces of Pall Mall. They were very quiet, pale, ragged, a miserable company forced to be idle and ompelled to beg. A contribution box was carried along each sidewalk. But voluntary contributions on such a scale were hopeless. After a few months people get tired of giving. London is too large. The great hive needs to warm. The parishes are beggared to support heir poor. What is wanted is to take these orty thousand people up bodily, and transfer hem to Canada or Austria—to South Africa—o any place where soil and sunshine will provide them food. They cannot move themselves. Their clothes and tools are at the pawn-brokers, heir furniture sold to the last stitch."

THE following, which occurs in the Paris etter to the New York *Times*, sustains the iews we have taken of the Paris Exposition as considerable failure: The French are naturally astonished at the indication of lukewarmness on the part of the Americans, for it was a great part on them that they counted, the ther nations being prevented by various reasons from traveling. The Parisians are also stonished at the small demand for rooms, and he prices, which were put up a quarter or a alf, begin to think seriously of falling again. he fact is, we already see advertisements in he papers of apartments and boarding "at he old rates." The immense temporary establishments in the neighborhood of the exhibition are, in part, the cause of this, for they furnish board and lodging cheaper than the old ates.

A tried and sure remedy for Indigestion, Heartburn, Acidity of the Stomach and Costiveness. It gives Life and Vigor to the whole System.

Holmes' Rheumatic Compound

This Compound is the most valuable medicine for Rheumatism that has ever been introduced. It is a sure cure in every case, and has conferred untold blessing upon thousands.

To those afflicted with Ague we would call their attention to the Celebrated

HOLMES' AGUE MIXTURE,

A preparation which has never failed to produce a permanent cure, when all preparations have failed to produce the desired effect.

HOLMES' CELEBRATED

MAGIC PLASTER,

A remedy for Cuts, Sprains, Bruises and Pains in the Side and Back. It is the best preparation ever offered to the public, and will rely on its own merits for recommendation.

These Medicines were prepared by the late Dr. S. R. HOLMES, of Pittsburgh, Pa., and used by him in his practice for a number of years with the greatest success, and now defies competition.

The Medicines are Prepared and Manufactured by the Proprietor.

J. R. HOLMES,

33 Ohio Street, Allegheny,

And sold by all respectable Druggists in the country. Full directions accompany each package.

All orders from a distance addressed to the Proprietor, J. R. HOLMES, Allegheny city, Penna., promptly attended to. d*

CITY MATTERS.

EASTER SUNDAY.—Easter Sunday was very generally observed yesterday by the churches in this city and vicinity.

SOUTHERN RELIEF FUND.—The total amount of contributions to this fund up to Saturday night, was three thousand seven hundred and twenty-three dollars.

BASE BALL.—A closely contested game of base ball way played on Saturday afternoon, between the Juniata and Osceola Clubs, the score standing: Juniata, 36 runs; Osceola, 33.

TO INCOME TAX PAYERS.—To-day will be the last day for making returns of income to the United States Assessor. After to-day, the penalties will be inflicted as directed by law.

MEETING IN THE NINTH WARD.—There will be a meeting of the citizens of the Ninth ward, at Independence Hall, Penn street, this evening, to hear the report of the committee in regard to the propriety of purchasing a steam fire engine.

GRAND TEMPERANCE CONVENTION.—A general convention of Temperance men, for the State of Pennsylvania, will convene in this city at Dr. Clarke's church. The proceedings will unquestionably be full of interest.

WIDOWS' HOME.—The old Orphans' Asylum in Alegheny has been purchased for a Widows' Home for the sum of fifteen thousand dollars. Most of this amount has been secured, but the managers appeal for additional contributions to complete and beautify the place.

ARM BROKEN.—Yesterday afternoon about one o'clock, a little son of Mr. John P. Messner, Market Constable, fell from the steps of a house on Fourth street, fracturing his left arm between the wrist and elbow. Dr. W. R. Childs was called in and attended the little sufferer.

IMPROVEMENTS IN SHARPSBURG.—A number of improvements are in progress in the thriving borough of Sharpsburg. About fifty new dwellings, principally frame, are rapidly approaching completion. A number of new manufactories and oil refineries are also about being built.

TEMPERANCE REFORM.—The temperance reform in Sharpsburg is meeting with great success. Lafayette Lodge, No. 11, Good Templars, which was recently organized, now numbers over one hundred members. The Lodge has fitted up a room in the third story of the School House in that borough in a neat and handsome manner, where meetings are held every Thursday evening.

NEW BUILDING.—The National Bank of Commerce, in connection with General Geo. W. Cass, has purchased a lot on the corner of Wood and Sixth streets, on which it is proposed to erect a magnificent building. The lot fronts seventy-four feet on Wood street, and extends back sixty feet on Sixth street. The plans are now being prepared. The bank will occupy the corner of the building.

RUN OVER.—Jacob Seybold, mail carrier between Pittsburgh and Saxonburg, Butler County, while driving a buggy along the road, about one mile east of Sharpsburg, on Friday afternoon, fell under the wheels of his vehicle, which passed over him, injuring his head and face severely, and lacerating the flesh upon his neck. He was conveyed to Scheid's tavern in Lawrenceville, where he received medical attention, and still remains. His injuries are quite severe.

ACCIDENT TO A PASSENGER TRAIN.—The westward bound train on the Pittsburgh, Fort Wayne and Chicago Railroad met with an accident near Huntsville, Indiana, Friday morning. The axel of the tender became disarranged in some unaccountable manner, and the result was a general smash-up, four cars being totally demolished. Fortunately, no passengers were killed. Several of those occupying cars nearest the locomotive were slightly bruised.

APPLICATION FOR DIVORCE.—In the Court of Common Pleas, on Saturday, the petition of James R. O'Neill was presented, applying for a divorce from the bonds of matrimony with Mary Ann O'Neill, nee Cordell. Cause—alleged adultery with Daniel O'Neill. The latter mentioned party, Daniel O'Neill, was married on Thursday evening last to a young lady of Allegheny, and is now absent on his wedding tour. Not being present to speak in his own behalf, it would be unjust to publish the numberless rumors afloat concerning this serious charge. They will doubtless be developed in due season.

NEW OIL REFINERIES.—An extensive oil refinery, to be known as the "Eclipse," is being built in Sharpsburgh, on the Allegheny Valley Railroad, by Dr. H. W. C. Tweddle, formerly of the Standard Oil Works. This refinery, which will be the thirteenth Dr. Tweddle has built, will cover an area of seven acres, and have a frontage on the Allegheny river of seven hundred feet. Two other oil refineries are being erected on the line of the Allegheny Valley Railroad, near Negley's Run, one by Messrs. Monshammer & Kaylor, and the other by Messrs. Braun & Wagner. Each of these establishments will have a capacity for refining twelve hundred barrels per week.

FATAL RAILROAD ACCIDENT.—The Freeport Accommodation train on the Western Pennsylvania Railroad, which left Allegheny on Friday evening at seven o'clock, when between Harmersville and Freeport, ran over a man named Inman, who was lying on the track. He was caught by the cowcatcher and rolled over and over, crushing his body and cutting his head terribly, killing him almost instantly. It appears that the deceased, who was a painter by trade, had been to Harmersville looking for a job, and not finding one, started in the afternoon for his home at Freeport. He was somewhat intoxicated, and is supposed to have gone to sleep on the track. The deceased was a young, unmarried man.

THE ALLEGHENY COMMONS.—The commissioners appointed by the Allegheny Councils to superintend the proposed improvement of the Common Grounds, met on Saturday evening, and after organizing, decided to engage the services of competent artists to prepare plans for the contemplated improvement. The commission is composed of gentlemen of intelligence and taste, and the various plans submitted to them will be well discussed before any definite selection is made. Mr. Wm. McKendry, the Recording Regulator of the city, will commence at once to arrange a plan of the grounds, a task which his long acquaintance with the city, and his proficiency as a Surveyor will enable him satisfactorily to perform.

RESIGNATION OF THE REV. HENRY D. MOORE OF PLYMOUTH CHURCH.—The friends of the Rev. Henry D. Moore, will deeply regret to learn that he has resigned the pastorate of the Plymouth Congregational Church in this city. The Rev. Mr. Moore made his advent in this city a little over one year ago, when he was installed over the church he is about to separate from, and during that period he has steadily and uninterruptedly carried forward the important work then committed to his hands, with a zeal and steadfastness of purpose which has resulted in the building up of one of the largest Christian congregations in Pittsburgh. Mr. Moore took his parishioners by surprise yesterday morning when he read his resignation in the pulpit, at the conclusion of the sermon. The congregation are determined not to part with him, if it is at all possible to retain his services; but the condition of his health requires that he should remove from the precincts of Pittsburgh, as its atmosphere is making serious inroads upon his physical strength. Mr. Moore has accepted a call from a Congregational Church in Cincinnati, of which the Rev. Dr. Boynton, formerly Chaplain to the United States House of Representatives, was the pastor.

Easter Day.

This festival of the Christian Church was very generally observed yesterday in this city, particularly in the Protestant Episcopal and the Roman Catholic Churches. In one or two cases that came under our notice, appropriate sermons were preached by the pastors of other churches which do not regularly observe the particular seasons. The attendance at the Roman Catholic Cathedral, and indeed at all the churches belonging to that sect in both cities, were crowded at each service, and the same may be said with regard to all the Protestant Episcopal Churches. At St. Peters, corner of Grant and Diamond streets, there was a prodigal display of the choicest flowers, filling the entire edifice with their delicious fragrance, and hightening the beauties of the well ordered and rich ornamentation of the chancel; indeed, words would scarcely serve us in minutely describing these floral decorations, the whole credit of which belongs to the taste and liberality of a prominent member of St. Peter's Parish, and the ladies of his household; suffice it to say, however, that the conservatories of the eastern cities were drawn upon for the floral offering, and the display was in the highest degree creditable to all who participated in furnishing it. At the early morning service the church was brilliantly lighted, and flashing gas jets from the gorgeous corona added much to the beauty of the scene and impressiveness of the services commemorative of Christ's resurrection. This Easter day has marked an era in St. Peter's Church, commencing, as it has, the regular establishment of daily morning and evening prayer throughout the year, and the weekly celebration of the Holy Communion.

The hours for service have been fixed, for the present, at 9 A. M. and 5 P. M., throughout the week; with the exception of Wednesdays, when evening prayer will be celebrated at 7½ P. M., as heretofore. In the sermon, yesterday, the Rector gave in detail a few of the reasons why he had decided to restore the "primitive custom" of daily prayers and weekly communion.

We have in our possession a *verbatim* report of the Rev. Mr. Fuller's sermon on yesterday morning, and we hope to be able to give it to our readers *in extenso* at an early day. The introduction of these daily services, it is desired, should not be regarded as a movement in the direction of Ritualism, as the Right Rev. Bishop Kerfoot, has, (some time since) selected St. Peters, as his Cathedral Church, and it is thought to be eminently proper that its doors should always be open for daily morning and evening prayers, and that all devout communicants who are so disposed, should there have an opportunity of partaking of the Lord's Supper every Lord's Day.

Local Religious Intelligence.

The new church edifice of the Ames Methodist Episcopal congregation, erected on the site of the Third Presbyterian Church, on the corner of Third and Ferry streets, which was destroyed by fire, has been completed, and services were held in it yesterday.

A powerful religious revival is in progress at the Baptist Church in Sharpsburg, and a deep feeling has been aroused. Meetings, conducted by Elder George Balcom, are being held every afternoon and evening, and are largely attended.

Rev. A. M. Milligan, of this city, delivered the annual sermon before the Ladies' Missionary Society, in the Third United Presbyterian Church, Allegheny, last evening.

The Spiritualists of Pittsburgh, Allegheny and vicinity met yesterday afternoon in the room adjoining Cargo's photograph gallery, Federal street, Allegheny, and considered the subject of organizing a Spiritual Society in this vicinity.

Rev. Herrick Johnson, pastor of the Third Presbyterian Church, this city, was announced to deliver a temperance lecture at White Hall, New Castle, on Saturday evening.

Rev. S. F. Jones, late pastor of Liberty street M. E. Church, this city, who was recently transferred to the New England Conference, has just been appointed to St. Paul's charge at Lowell, Mass., which is represented as being an admirable appointment.

The congregation of Redstone, Pittsburgh M. E. Conference, recently sent their late pastor, Rev. A. H. Norcross, and his wife, when about to remove to their new field of labor, gifts amounting to one hundred dollars.

A Methodist Preacher's Association for Bridgewater and vicinity has just been organized, to meet every Tuesday, at 2 o'clock, P. M., in the Bridgewater Church. The order of exercises embraces, for first Tuesday of each month, reports of the spiritual condition of each church and a free interchange of opinion with reference to promoting spirituality; for second Tuesday, sketches and expositions; for third Tuesday, a theological topic selected for discussion; and for fourth Tuesday, general discussion and conversation on miscellaneous subjects. All traveling and local preachers of the Methodist Church are entitled to membership.

There will be a meeting of the Steubenville and Allegheny Sunday School Association in the Methodist Episcopal church at Canton, Ohio, on Tuesday, May 4th, at two o'clock P. M. This Association embraces all the preachers, and all the officers, teachers, and active members of the Sunday Schools of the M. E. church, within the bounds of the Steubenville and the Ohio part of the Allegheny districts of the Pittsburgh Conference. Arrangements are being made for the entertainment of all who may attend, and the committee in charge are anxious that every Sabbath School within the bounds of the Association be represented.

The church buildings occupied by the Methodist Episcopal and Methodist (late Methodist Protestant) congregations in Sharpsburg have become too small, and active measures are being taken to secure the erection of more commodious buildings. The Methodists propose to erect a new building on the site of the one now in use, and some eight thousand dollars have been subscribed for this purpose. The Methodist Episcopal congregation have purchased an eligible site in the western part of the borough, and will commence operations at an early day.

The German Catholic congregation in Sharpsburg, of which Rev. Father Schell is pastor, are erecting a large and magnificent church edifice. This building was commenced in April last, and is rapidly approaching completion. The edifice presents a very imposing appearance, and will rival some of our city churches and dimensions. The extreme length is one hundred and sixty feet, and the width sixty-two feet. The main audience room, from the alter to the rear door, is one hundred and five feet in length, thirty-four feet in width, and thirty-feet from the floor to ceiling. It will contain one hundred and forty-four pews, and will accommodate about twelve hundred persons. The building is gothic in style of architecture, and will be surmounted by a spire two hundred feet in height. The structure, it is estimated, will cost from $45,000 to $50,000, and it is expected that it will be completed in June. On the site of the old church a large frame school house has been erected by the congregation, and religious services have also been held there during the past year.

THE SCULLING CHAMPIONSHIP.

Comprehensive Challenge from Jimmy Hamill—He Offers to Row Fred. Wolf and Fred. Dierst on the 23d and 25th of May, Making Three Races in One Week.

The interest in aquatic sports, which has been gradually increasing since the advent here of Walter Brown, has not yet attained its culminating point, nor is it likely to do so for some time, viewing the efforts of our townsman, Jimmy Hamill, the present Champion. It is well known that there are many expert oarsman in Pittsburgh and vicinity, whose friends and even themselves have been anxious to make a match with Hamill for the Championship, but as none have ever approached the Champion in the proper way, no heed has been paid to their talk. Hamill, having determined never again to row a race over the Pittsburgh course after this season, and not desiring to put to expense any that may desire to row him by taking them elsewhere, has issued the following comprehensive challenge. It is brief and to the point, and offers an opportunity to every man who may feel like contesting the championship with him:

TO F. DIERST, F. WOLF AND ALL ELSE WHOM IT MAY CONCERN:

I, James Hamill, will row F. Dierst a five mile scull race over the Monongahela course, starting from the Monongahela bridge, two and a half miles down, and return, for a purse of one thousand dollars a side, race to come off on Thursday, May 23d, at any hour agreed on by the parties.

I will also row Fred. Wolf a five mile race over the same course, same distance, on Saturday, May 25th, for one thousand dollars a side.

The above challenges are open to all else whom it may concern. These challenges will remain open three days for acceptance. JAMES HAMILL.

Here is a brief and comprehensive challenge to two of our best oarsmen, and all else whom it may concern. Hamill means business in the above, although it may seem strange that he proposes to run the three races in one week—his race with Brown taking place on Tuesday, May 21st. Hamill yesterday received flattering information concerning his new boat, now being built by McKay, of New York. The new boat is thirty-one feet in length, thirteen inches in width and will weigh between twenty-nine and thirty pounds. She will be, it is said, a perfect beauty in model and strength, and will soon be ready for shipment to Hamill.

In the meantime, a manly reply is expected to the above challenges from Hamill.

A Strong Lodge of Good Templars.

NEW BRIGHTON, PA., April 20.

To the Editor of the Pittsburgh Commercial:

A public meeting of an interesting character came off last evening in the Protestant Methodist Church here, which was crowded in every part, to hear Rev. Davidson, the State Lecturer of Good Templars. Rev. Mr. Critchlow was called to the chair. After prayer we had several pieces of choice music by the Rochester choir, under the leadership of Professor Carter. Then a lecture by the speaker of the evening, followed by a call for volunteers to form a Good Templar's Lodge, which was responded to by one hundred and eighteen citizens—forty-two ladies and seventy-six gentlemen—and New Brighton Lodge, I. O. of G. T., was organized in due form, and the following officers elected: Joseph Wilson, W. C. T.; Jennie Thompson, W. V. T.; Jas. Pontafeact, W. S.; Mrs. Strattop, W. T.; Jennie Winings, W. I. G.; Frank Brierly, W. O. G.; Mrs. Edgar, R. H. S.; Miss Mira Sharrar, L. H. S.; John Whitley, W. F. S.; Hattie Fulton, W. A. S.; Robert Kerr, W. M.; Susan Fitzsimmons, W. D. M.; Joseph Alexander, P. W. C. T.; Rev. J. J. McIlyar, W. Chaplain.

The occasion was rendered very interesting by the attendance of upwards of one hundred members, ladies and gentlemen, of the lodges at Rochester and Bridgewater, who appeared in regalia. The presence of so happy and interesting a party of friends of the cause helped much to the organization of this, the largest Lodge ever organized in the State. All the clergymen of the town were at the meeting, and the most perfect order prevailed. Mr. Davidson is very fortunate in having the best of order at all his meetings. There can be no mistaking the fact that the whole people are awake on the great question of temperance, in all the towns of Beaver county.

Meeting of the Union Republican Executive Committee.

A meeting of the Union Republican County Executive Committee was held on Saturday afternoon at the office of Messrs. Arthurs & Riddell, Fourth street, for the purpose of designating the time for holding the nominating conventions, and attending to other important business. John W. Riddell, Esq., presided, and General A. L. Pearson acted as Secretary.

After a general interchange of opinion, J. K. Brown, Esq., moved that the convention for nominating county officers and choosing delegates to the State Convention, be held on the first Tuesday in June, and that the primary meetings be held on the preceding Saturday. Adopted.

On motion of Alexander Watson, Esq., it was resolved that the convention for choosing candidates for the State Legislature be held on the first Tuesday in September; the primary meetings for the selection of delegates to be held on the Saturday preceding the convention.

After the transaction of other business the meeting adjourned.

Raid by Police—Sabbath Desecrators Arrested

Mayor McCarthy received information yesterday that a covered flat boat, moored at the foot of Etna street, in the Allegheny river, had been converted into a drinking saloon, which was visited by large crowds of young men, who acted in a very disorderly manner. A raid on the establishment was decided upon, and last night about ten o'clock, the police made their appearance suddenly on board the boat and discovered a dozen men standing in front of the bar. Johnny Wells and Andrew Busha, were doing the honors, and were dispensing fluids to their customers with a liberal hand. The sudden appearance of the officers disconcerted the visitors, who attempted to escape, but the raiders closed in upon them, arrested the entire party and escorted them to the watchhouse. The Mayor, who was present, read them a lecture, and discharged all of them, except Wells and Busha, who were held to answer for selling liquor on Sunday. Among the party arrested were several young men occupying prominent positions, and who appeared greatly crestfallen when arraigned before the bar of justice.

WENDELL PHILLIPS'S LECTURE.—A large and intelligent audience was present at the Academy of Music Saturday evening, to hear the lecture of Wendell Phillips, on "The Lost Arts." All came away satisfied that they had enjoyed a rare intellectual treat. The distinguished English reformer, Henry Vincent, will give the three closing lectures of the Young Men's Mercantile Library Course, at the Academy of Music, commencing on Wednesday evening. It is needless to say that his lectures will prove interesting and instructive.

CORONER'S INQUEST.—Coroner Clawson, on Saturday morning visited Manchester for the purpose of holding an inquest on the body of Patrick McCall, who died on Friday from injuries received by the bursting of the boiler of the steamer Alex. Chambers in the Monongahela river, on Thursday. After a jury had been empannelled, the inquest was postponed until Thursday evening, in order to give the parties selected to examine the boiler an opportunity to report.

BROKE JAIL.—Mayor McCarthy received a telegraphic despatch on Saturday from Uniontown, stating that Thomas Hashman, a prisoner confined in the jail there, made his escape on Friday by breaking out of his cell. He is about fifty years of age, five feet four inches high, of fair complexion, and dressed in black clothes. Sheriff Boyd offers a reward of fifty dollars for his arrest.

POLICE INTELLIGENCE.

[Before Mayor Morrison, of Allegheny.]

ASSAULT ON AN OFFICER.

Officer Henry Hess, of the Allegheny day police, went into a tavern on Ohio street on Saturday night, for the purpose of quelling a disturbance, when he was assaulted by four men, who beat and abused him outrageously, one of whom struck him on the head with some blunt instrument, injuring him quite severely. Officer Hess yesterday made information against his assailants, whose names are unknown, for aggravated assault and battery. They have not yet been arrested.

LOAFERS ARRESTED.

The Allegheny night watch made a raid on the corner loafers on Hemlock street on Saturday evening, and succeeded in arresting three colored men, whom they conveyed to the lock-up. They were discharged yesterday upon paying a nominal fine.

[Before Alderman Strain.]

ARRESTED AND COMMITTED.

Andrew Jackson Brown, against whom two informations—one for felonious assault and battery, and the other for surety of peace—were made about a week ago by Joseph Peurose, was arrested on Saturday and committed to jail for trial, in default of one thousand dollars bail on the former charge, and two hundred dollars on the latter.

[Before Alderman Taylor.]

RECEIVING STOLEN GOODS.

Henry Brentenow was arrested on a charge of receiving stolen goods, in buying some scrap iron from a boy which had been stolen. He resides in the Fifth ward. He gave bail for a hearing.

[Before Alderman Donaldson.]

ASSAULT AND BATTERY.

Charles Lewellen was before this magistrate on Saturday, charged with assault and battery, on oath of Priscilla Bowers, who alleged that he accosted her in a rude manner in Temperanceville and threw her on the ground. He was held for a hearing.

[Before Alderman Lynch.]

John Meaglen lodged an information on Saturday against Frederick Giges, a driver in the employ of Carson, Darlington & Co., for malicious mischief, alleging that the latter maliciously drove his wagon against the vehicle driven by him, tearing one of the wheels off. He gave bail for a hearing.

[Before Justice Stephens, of Union Township.]

ALLEGED OUTRAGE BY A BOY.

Adam Williams, a boy about fifteen years old, was arrested on Saturday, on a charge of outraging the person of a little girl named Margaret Jones, aged eight years. The alleged offense was committed on Friday evening, near the girl's residence, at Saw Mill Run. The lad was lodged in jail for trial.

ILLEGAL LIQUOR SELLING.

Mrs. Hester Wilson was arrested on a charge of illegal liquor selling, on oath of Mary Shields. The parties reside at Saw Mill Run. She gave bail for a hearing.

RELEASED FROM JAIL.

On Saturday, in the Court of Quarter Sessions, before Judge Mellon, Wm. Lourimore, charged with committing a rape in the borough of Sewickley, was released on $3,000 bail.

Edward Coyle, charged with rape on oath of a woman named Brush, who never appeared to prosecute, was discharged by Judge Mellon, having been confined in jail during a number of terms of the Court.

Public Amusements.

NEW OPERA HOUSE.—The accomplished and versatile actress Madame Scheller, has been re-engaged and will this evening give her delightful impersonation of "Lorlie" in the play entitled "From the Village to the Court." Mr. Gotthold, a prominent German actor, will pass through Pittsburgh this week, and will probably remain here a few evenings and perform at the Opera House. Mr. Gotthold is reputed an excellent performer.

VARIETIES.—M'lle Laurent, a dashing premier danseuse, is announced to make her first appearance this evening. A capital burlesque will also be performed.

THE CIRCUS TO-DAY.—The celebrated circus and menagerie of Thayer & Noyes will inaugurate their spring and summer season in this city to-day. The troupe of performers have been selected with great care, and embrace some of the best in their respective lines of business. The performances promise to be of an excellent character, and the spacious pavilion of the company will doubtless be crowded to-day and to-night.

A TIMELY WARNING.—It is especially important at this time, when the markets of the United States are flooded with the direst poisons, under the name of imported liquors, and when domestic compounds purporting to be medicinal, but not a whit less pernicious, are heralded to the world as "sovereign remedies," that the public should fully understand the facts. Be it known, then, that while all the diffusive stimulants called *liquors* are impure, and all the *Tonics* containing alcohol are manufactured with a fiery article containing *amyl* or *fusel oil*, a *mortal poison*, HOSTETTER'S CELEBRATED STOMACH BITTERS contain none of these things, but are a combination of pure essence of Rye, with the pure juices of the most valuable stomachic, anti-billious, and aparient herbs and plants, and that as a safe and rapid remedy for Dyspepsia, and all its kindred complaints, this preparation stands before the world without a rival or competitor. Its sales to-day are equal to the combined sales of all the other tonics advertised in the United States, and the certificates which authenticate its usefulness are signed by individuals of the highest standing in every professional calling and walk of life. Beware of imitations and impostors.

LANGEN'S SHELVING GRATE—IMPORTANT INVENTION.—We take the pleasure to refer our readers to Mr. Meissner's card in another part of our paper. He is at present in the city for the purpose of putting up some of the celebrated Langen's Shelving Grates, of whose great merits many of our readers have doubtless heard. Their general introduction here into this black city would be important and go far to make Pittsburgh a more pleasant place to live; it would take from her the reputation of being the smokiest and consequently the dirtiest city of our Union. The grates were patented in the United States, 1865; already over 8,000 of them are now in use and successful operation. Their special characteristics are, that the fresh coal or fuel is not thrown upon the fire, but is shoved in, under and behind it. No air is admitted but what passes through the fresh fuel first before it reaches the incandescent mass. The effects of this are:

1. All moisture in the coal, and all the gases which are given out before they become completely ignited, have to pass through the burning fuel, where they become decomposed and are consumed, increasing thereby the heat.

2. The air is, where it reaches the burning coal, not deprived of its oxygen, and acts upon it with the fullest effect.

3. No cold air is admitted into the furnace at any time to rush through and carry off a portion of the heat.

From this results:

A complete, always equal and *smokeless* combustion and an increased evaporation, by a given quantity of fuel, compared to *any* plain grate which has been by the experience of *thousands* of owners constated to be from 18 to 30 per cent., varying according to the nature of the fuel and other circumstances.

With this it combines *simplicity of construction*, being without mechanism, and is more easily attended to with less exhausting labor, than any other grates. All kinds of bituminous coal can be burnt on it, even the poorest sort of coal, shavings, peat, saw dust, tanbark, tar or rosin, refuse from oil refineries, *without producing smoke*. The grate bars are never heated injuriously or obstructed by cinders, and by manner of feeding the fire the burning coal is frequently turned over and cleaned of ashes, and new surfaces are offered to the action of the air, which favors the draft so that a lesser height of chimney is required.

These properties of this grate were proved in thousands of instances in Germany, where it is everywhere substituted for all other grates. It has also been proved at the Sligo Iron Works of Lyon, Shorb & Co., where a grate has just been put up under the steamhammer boiler. It works to perfection, allows a smokeless combustion after the fire is once started, answering all that is claimed for it. Thanks to the liberality and enterprise of Mr. Lyon, another grate is being put into a puddling furnace, which will, no doubt, soon prove a great success, and which will make easy, in a certain measure, the exhausting labor of attending such a furnace. These grates are applicable to all sorts of steam boilers, glass houses, limekilns, potteries, evaporating pans, and coal oil stills, and would be a great desideratum upon every steamboat on the western waters.

CARD.—Robert Hunter, M. D., Physician for diseases of the throat, lungs and heart. Dr. Hunter will close his office in Pittsburgh on Saturday, April 27th. Those who desire to avail themselves of his experience previous to his return to New York, should do so at once. Consultation Rooms, Merchant's Hotel.

MONITOR WASHING MACHINE.—This machine with wringer attached, for sale at Roberts & Sherratt's, 61 Smithfield street, is of all the machines yet invented, the very best for household use. Most machines involve an amount of drudgery scarcely less than the old wash board, but the "Monitor" makes washing a comparatively agreeable operation. Then there is no wear upon the clothes, no tearing off of buttons. The inventor of such a machine deserves almost a monument—certainly a fortune, and we doubt not that he will realize it. The dealers here, Roberts & Sherratt, may expect to be besieged with callers to look at and buy this simple yet wonderful machine.

FINANCE AND TRADE.

SATURDAY EVENING, April 20, 1867.

The demand for money kept up very heavy and urgent throughout the past week, and the income to our banks as well as individuals is not half adequate to their wants. Hence the money market is kept in a very close condition. There is a sluggishness in all speculative movements, and transactions only occur when the imperative demand from exhausted supplies operates upon the markets.

—There is an erroneous impression entertained by the holders of Seven-Thirty bonds, which ought to be removed. It is this, that these bonds can be converted any time after maturity. They are convertible now or at maturity, and not afterward. The Secretary of the Treasury, by giving notice that conversions may be made before maturity, has taken away any excuse for claiming a conversion after the notes mature. The law under which the seven-thirties were issued left the Secretary at liberty to bargain with takers of the notes. On this point the act of June 30, 1864, provides that

> Any treasury notes issued under the authority of this act may be made convertible, at the discretion of the Secretary, into any bonds issued under the authority of this act.

By virtue of this discretionary power, the Secretary issued the seven-thirty notes with the following condition and bargain, plainly printed on the back of the notes:

> At maturity convertible, at the option of the holder, into bonds redeemable at the pleasure of the Government at any time after five years, and payable twenty years from the 15th of August, 1867, with interest at six per cent. per annum, payable semi-annually, in coin.

This is on the August notes (1st series). The same is on the back of the 2d and 3d series, with the time changed to June 15 and July 15, 1868. It is plain that on the very next day after the seven-thirties mature the holder loses the right of conversion, and it is now quite evident that the Government will pay the notes, not timely presented, in money.

Messrs. Ira B. McVay & Co. are funding the 7-30's into 5-20's on the same terms as the Government itself, without any "red tape" inconvenience or delay.

—Belding, Keith & Co.'s London *Weekly Circular*, under date of April 6, just received at this office, notices that American securities, during the last month, presented quite an exceptional feature, for while there has been a continued fall in almost all foreign stocks, the price of these bonds has been firm, with an upward tendency, and in both issues, though there is still a margin of 1¼ per cent. in favor of the 1862s. Eries and Illinois Central have both experienced a fall of 1¾ and 1¼ respectively, since the first of the month, while there is continued depression in both the Atlantic and Great Western Railway Debentures and Consolidated Mortgage Bonds, which are quoted 31 to 32 and 22½ to 23. The traffic receipts of the Company for March show an increase of $15,610 on the returns in the corresponding period last year.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL,
SATURDAY EVENING, April 20, 1867.

There is not much change in the tone of the general markets to-day, and at the close, with few exceptions; the prices of leading articles remain nearly the same as at the close of last week. There has been a fair business done in most branches of trade. The flour market is not so much excited, but continues active and firm. There is so little wheat offered that quotations are merely nominal. The Chicago *Tribune*, of to-day, says: The wheat market was quiet, though prices were 1@2c higher. The stock is mainly held in few hands, and in the legitimate way the business is light. A few "fives" are daily placed on the market as a "foot-ball" to be kicked up or down at the will of a few leading operators. We report sales of 48,000 bush at $2 80 for No. 1; $2 44@2 46 for No. 2, and $2 14@2 17 for rejected—closing at $2 44½@2 45 for No. 2.

The receipts of leading articles of produce, since our last, per river and railroad, were 551 bbls flour, 419 bbls apples, 844 sacks corn, 44 sacks barley, 765 sacks wheat, 1,835 sacks oats, and 62 packages of butter.

We quote the Pittsburgh market as follows, which are the wholesale prices, unless otherwise stated:

ASHES—We note sales of 8 tons Pearls at 14c; 16 tons Soda Ash at 5¼c ₱ lb, and 5 casks Potash at terms not stated.

APPLES—The market is well supplied. The demand has fallen off in the past few days. Nice apples in packages were selling to-day at $4@5 ₱ bbl, the latter figure for strict choice.

APPLE BUTTER—We note sales of 10 packages at 75c ₱ gallon.

BUTTER—There appears to be an overstock on the market and prices have declined, as choice roll was offered, to-day, and had to sell at 28@30c ₱ lb. We note sales of 10 tubs roll at 30c and 12 packages at 28@30c ₱ lb.

BEANS—We quote prime Navy at $2 75@3 00 ₱ bushel.

CORN MEAL—We quote at $1 10 ₱ bushel.

DRIED FRUITS—The market remains quiet and prices nominally unchanged. We quote Apples selling from store at 9@10c, and Peaches at 16@20c ₱ lb, as to quality.

EGGS—The stock on the market is very large. Nearly every commission house, grocery store, and even dry goods houses, have been in receipt of shipments, varying in size from 2 bbls to 50 bbls, and in some cases double the latter figure. Some of our heaviest commission houses have not sold 5 bbls for the past two days, and were offering to sell to-day at 17@18c ₱ doz, without finding purchasers at these figures.

FLOUR—During the past week the flour market became more settled. There has not been the excitement this week which prevailed last week. The market was perhaps never more excited than it was then. Nearly every dispatch quoted an advance of 25@50c ₱ bbl. Many dealers were afraid to give prices on round lots, fearing that they could not replace it at the great price they might ask. A change took place this week. For the first few days. Monday, Tuesday and Wednesday, some of the dealers who had held their stock for a higher figure, grew a little nervous, and anxious to sell, fearing prices might decline. On Thursday wheat advanced 5c ₱ bushel at Chicago, and dealers have begun to hope, and on Friday all brands of flour in the Chicago market advanced 25c, which gave the trade here renewed prospects, thinking it had taken another start upward, and where it would stop no one knew. Some Chicago bankers telegraphed here, that it would surely go up to $20 ₱ bbl., and that now was the time to buy. On the strength of this some parties bought heavily. On this (Saturday) morning there was no change in the Chicago market and only a moderate demand, and at 2 o'clock P. M. it was reported to have fallen back 25c ₱ bbl. There appears, however, to be but little prospect of good flour being much lower for some time, as it is hardly possible that wheat will get back to where it started from, until the new crop gets into market. We note sales of 140 bbls Jenkins's Lilly Mills, at $14 75. This brand has given so much satisfaction that parties selling cannot supply the demand. 200 barrels McGregor's best $14 50; 100 Crosett's Crescent at $14, and 140 Emerald at $14 25 ₱ bbl.

RYE FLOUR—We quote at $8 50 ₱ bbl.

BUCKWHEAT FLOUR—Is selling at $375 ₱ hundred.

GRAIN—The transactions in wheat, on account of light stocks, are very limited. We quote No. 2 spring (about the only kind coming to market) nominally $2 80@2 90 ₱ bush.

CORN—There has been a good demand for corn. We note sales, from elevator, of 1 car, going East, shelled, at $1 05; 2 cars at $1 00, and 3 cars at $1 05 ₱ bush.

OATS—There is considerable activity in the market. We note sales of 200 bush from store at 65c; 1,000 bush, delivered, at 65c; 1,500 bush, on the track, at 62c, buyers furnishing sacks; 70 sacks and 300 bush, on the wharf, at 65c, and 1,000 bush, to arrive, at 60c ₱ bush.

RYE—There is not much coming forward, and we quote from elevator at $1 50 ₱ bush.

BARLEY—The general quotation is $1 10 ₱ bush.

HAY—We noticed a sale of 1 car, on the track, at $24 00 per ton, and sales from country wagons at $27 ½@29 00 per ton, as to quality.

LAKE HERRING—Sales reported of 25 half bbls at $4 25 each.

LIME—Sales of 100 bbls Lime at $1 75 per bbl came under our notice.

POTATOES—We quote P. B. selling from store at $3, and Buckeye at $3 25@3 50 per bbl.

SORGHUM—This article is selling slowly at 50@55c per gallon.

SALT—We quote from store at $2 85@3 00 per bbl.

ONIONS—We note sales at $3 75@4 00 per bbl.

WEEKLY REVIEW OF THE OIL MARKET.

OFFICE PITTSBURGH COMMERCIAL,
MONDAY, April 22, 1867.

The following are the receipts of oil by rivers and railroads for the past week, compiled from the daily files of the COMMERCIAL; also a comparative table for the same period in 1866:

	Rivers.	Railroads.	Total.
Monday, April 15	7,309	1,723	9,032
Tuesday, " 16	22,530	1,408	23,938
Wednesday, " 17	25,403	1,275	26,678
Thursday, " 18	8,910	936	9,846
Friday, " 19	5,155	2,006	7,161
Saturday, " 20	3,296	1,825	5,121
Total for the week	72,603	9,173	81,776
Since January 1	274,695	84,293	358,988
To April 20	347,298	93,466	440,764
Same time 1866	272,890	74,185	347,075
Increase in 1867	74,408	19,281	93,689

The oil market, during a portion of the week, exhibited a fair amount of activity. The sales on particular days were large, whilst on others there were scarcely any sales at all. The week's receipts by river and railroad amounted to 81,776 barrels. The income up to this time by river and railroad, over the same period last season, amounted to 93,689 barrels. At the same increase during the balance of the year, the receipts at this place will exceed two millions of barrels. The rates of Crude, during the week, were without any material alteration. The weeks operations were 44,900 barrels, in lots, principally for future delivery; besides these some other large parcels were under negotiation, which, if consummated, would reach 25,000@30,000 barrels. The sales made were on the spot, at 6½c, 6¾@7c for bulk, according to the gravity. Sales for May and June delivery were made at 7½@7¾c, and sales were made for all 1867, buyers' option, at 9½c.

REFINED OIL—The rates have undergone no alteration. The week's sales were 16,500 bbls of bonded principally for future delivery; prices being governed as to where the oil was to be delivered. The only sales on the spot were at 20½c free, on cars at works, and 29½c Philadelphia delivery immediately for standard white. Light straw to white sold at a shade lower prices.

Saturday's operations were not very extensive. Prices have undergone no alteration. We note the following: 1,000 bbls crude, May, 7c; 700 bbls bulk on the spot 6½c; 2,000 bbls bulk to arrive this water 6½c; 1,000 bbls delivered next week 6¾c.

REFINED OIL—The market has undergone no change as regards prices or demand. The sales reported since our last issue were 4,000 bbls as follows: 500 bbls bonded, Philadelphia, May; 500 bbls do., June; 500 bbls do. July; 500 bbls do. August; 500 bbls do. September; 500 bbls do. October; 500 bbls do. November, and 500 bbls do. December, all at 29½c ₱ gallon.

COAL MARKETS.

LOUISVILLE.

Thursday's quotations were: Pittsburgh, at wholesale, 12@16c, afloat, the latter rate including boats. The retail rate of best Pittsburgh is 20c ₱ bush, delivered. We quote Pomeroy coal to boats 14c.

CINCINNATI.

There has been no change in the market since our last, says the *Enquirer* of Saturday. There is a fair amount at the river which is being sold at 9@10c afloat for Ohio River and Youghiogheny. The retail demand is supplied at 14@16c for Ohio River, and is @18c for Youghiogheny, delivered to consumers.

PHILADELPHIA.

The coal trade continues dull and exceedingly unprofitable, says the *American* of Saturday. Orders are coming in slowly, but we notice no indications of an improvement in prices soon to take place. The manner in which a great deal of Schuylkill coal is being disposed of in New York has a serious effect upon the trade, as it is not generally known outside of New York that it is mostly of inferior quality, besides being badly prepared. Good and well prepared coal is seldom sent upon the market and sold at less than cost. We quote white ash at $4 50@4 75, and red ash at $4 75@5 25 ₱ ton, as to quality.

New York Finance and Trade

Gold Closed at 139¼@139¾.

NEW YORK, April 20—P. M.

THE MONEY MARKET.

Money is working easier. Call loans are generally done at 6 per cent. on stock collaterals, and 4@5 per cent. on Governments. The returns of the banks do not at all indicate a decrease of two and a half millions in loans, and a million in specie, and an increase of a million in deposits, three and a half millions in legal tenders.

STERLING

Quiet and firm.

GOLD

Active and excited, after closing the room, on private reports of lower prices at Frankfort. Closing rates 139¼@139¾.

Weekly Review of the Wholesale Market

NEW YORK, April 20.—Most of the staple articles except corn and cotton have been quiet. The former advanced materially, while the latter declined rapidly. The general trade of the city has shown some improvement over the former week. Flour sold slowly at regular rates. Low grades declined and sold at reduced prices, while choice brands have been in diminished supply, and sold at better rates. The stock has been diminished slightly, but the assortment of really good brands is very poor. There was more done for export, both for the West Indies and the British Provinces. At the concession trade operated continuously.

Wheat fluctuated somewhat, and common qualities declined, closing very heavy. Choice qualities are firm and in limited supply. The stock is reduced to 115,000 bushels, chiefly spring, much of very inferior quality.

Oats fluctuated rapidly, particularly common qualities. At the close all kinds are firm. The stock is reduced to 125,000 bushels.

Rye declined considerably but at the close there was more firmness. The stock is reduced to 280,000 bushels. Demand fair.

Corn—The market has been much excited and prices improved, but fluctuated with the variable news from Europe. The advance during the week was about 2c ₱ bushel. The demand was large by speculation, although fair for home use. The stock is reduced to less than 1,300,000 bushels. At the close the market was strong.

Pork has been active, but at lower rates. Receipts liberal.

Beef, under light receipts and active demand, has advanced. The stock of good is nearly exhausted.

Cotton much depressed by unfavorable news from Europe. The decline during the week was 2½c.

Groceries quiet, without material change.

Butter declined 6 to 7c.

Whisky declined materially. Prices nominal at the close. Business nearly all in contraband.

Cincinnati Market.

CINCINNATI, April 20.—Flour in demand and firmer, but not quotably higher; trade brands $13 25@16. Wheat unchanged; a small lot No. 2 spring sold at $2 75; the amount offering is so small that quotations for the different grades can't be given. Corn firmer; sales at 85@86c in bulk and 97c sacked. Oats 65@66c. Rye $1 70, and in fair demand. Barley steady. Whisky dull at 28c in bond. Cotton dull; no demand, so that no quotation can be given. Provisions generally firmer and in better demand. Mess pork held at $22 50—Buyers at $22 25. Bulk meat held at 8@10c loose, for city; but these are ¼c above the views of buyers. Bacon—sales 210 hhds at 11½@12c for clear sides, and 9c for shoulders. Lard in active demand and prices tend upward; sales of 300 tierces at 12½c, but at the close holders asked 12¾c, and not much offering. Hams unchanged; Sugar cured 15@15½c; Common 13@14c. Butter dull, but no lower: supply better. Eggs dull at 15c: large supply. Sugar firm with a fair demand at 11½@14½c. Coffee 26@27c for fair to prime Rio, the advance in gold has had a favorable influence on both these articles. The imports and exports of a few leading articles during the week were: Flour, imports, 5,417 bbls; exports, 3,471 bbls; wheat, imports, 26,275 bushels; exports, 10,921 bushels; corn, imports, 56,379 bushels; exports, 8,251 sacks; oats, imports, 27,786 bushels; exports, 5,361 bushels; rye, imports, 10,668 bushels; exports, none; whisky, imports, 6,094 bbls; exports, 289 bbls; cotton, imports, 1,967 bales; exports, 1,382 bales; pork, imports, 107 bbls; exports, 1,553; pork, imports, 311 hhds; exports, 1,171 hhds; pork, imports, 840,561 lbs; exports, 27,168 lbs; lard, imports, 2,624 bbls and 1,528 kegs; exports, 1,276 bbls and 381 kegs. Seed unchanged and quiet; season nearly over and demand light; clover, $13 75@12; timothy, $3 40@3 50; flax, $2 60. Linseed oil firm at $1 45. Gold closed at 137½ buying, and 138½ selling. Exchange firm; no change in rates.

New York Dry Goods Market.

NEW YORK, April 20.—Dry goods trade quiet. There is not much tone to the market for cotton fabrics; the changes, however, are very light. Stark unbleached sheeting are ½c lower, selling at 19½c; Lawrence A, 15½c; Atlantic A, 21c; do H, 20½c; New Hartford A, 15½c; Shawmut C, 19c; do E, 18c; Salmon Falls W, 15½c; Kennbec, 12½c, and Roxbury A, 19c. Bleached muslins of best makes are scarce and in request at full previous prices; inferior makes are in limited request and prices infirm. Prints in steady request at 19c for Merrimac W; 17c for do D; 18c for Cocheco L; 17@17½c for Sprague's fancies; 19½c for extra styles; 15c for Amoskeag; 14c for Lowell; 12½c for Wamsutta I, and 9½c for Troy and Hovey's.

Baltimore Market.

BALTIMORE, April 20.—Coffee quiet; no sales. Sugar steady but inactive at 10@12½c for fair to good refining. Flour dull, scarce and nominally unchanged. Wheat dull; sales prime and strictly choice amber red Maryland at $3 40@3 57; medium $3@3 25; Pennsylvania red $2 85@3 00. Corn firm and advanced 1@2c; sales closed dull. Oats dull at 71@73c. Clover seed dull at $12 for prime new. Provisions—Bulk shoulders at 8½c; sides at 10½c; packed 10½@10¾c. New mess pork inactive. Lard—Sales of western at 13½@13¾c; city 13c. Whisky—Sales at 28@30c in bond for city and western.

St. Louis Market.

ST. LOUIS, April 20.—Tobacco buoyant at $5@22 65 for leaf. Cotton nominally lower but no sales reported. Hemp $1 35@1 45 for undressed; $2 75 for dressed. Flour firm for choice but dull for medium and lower grades; prices unchanged. Wheat—Increased receipts caused dull markets, but prices are not quotably lower. Corn—Fancy white $1 14, but other grades unchanged. Oats, barley and rye unchanged. Provisions very dull and little doing; heavy country mess sold at $22 62@22 87. Bacon and bulk meats unchanged. Lard unchanged; business small. Whisky dull; free ranging at $2 06@2 10.

New Orleans Market.

NEW ORLEANS, April 20.—Cotton unsettled and easier; low middlings 23½@24c and nominal; sales 1,500 bales; receipts 8,003 bales; exports 12,664 bales. Sugar nominal. Flour steady with a good demand, at $13 25@13 37 for superfine. Corn firm, mixed $1 17½@1 22; white $1 28@1 30. Oats dull at 80@82½c for prime. Lard firm and unchanged. Pork firmer at $23 50@23 75. Gold 138½. Sterling Exchange 147@150. New York light ⅛@¼ premium.

Louisville Market.

LOUISVILLE, April 20.—Sales 119 hhds leaf tobacco; low grades $2 25@16 50. Superfine flour $10 00@11 00 for good brands. Wheat nominal. Corn—Shelled, $1 05 for white; ear in bulk, 85c. Oats 75@76c in bulk. Mess Pork $22 00. Bacon shoulders 9¼c, packed; clear sides, 12@12¼c, packed; lard in tierces, 12@12½c. Raw whisky, free, $2 24.

Philadelphia Market.

PHILADELPHIA, April 20.—Flour quiet but steady; sales of northwestern extra at $14 50; extra State $15; California $16 50. Wheat in good demand; sales of prime Pennsylvania and California red at $3 40. Rye—sales 1,000 bushels western at $1 65. Oats lower and dull; sales at 74c. Whisky—sales of contraband at $1 75. Petroleum unchanged.

MATTERS AND THINGS ALONG THE WHARF.—The weather yesterday was decidedly pleasant. Business on the landing on Saturday was not very active. The Grey Eagle left for Parkersburg with a good trip. The side-wheel packet Ezra Porter left for St. Paul, with all the freight she could carry and a good number of passengers. Boats for that region are plenty. Tee following ones are announced: Kate Putnam, Glasgow, Columbia and Importer. The Bayard arrived from Parkersburg. She will return at noon. The Ingomar, from Matamoras, had an excellent load. She returns to that port this morning. The towboat Coal Valley, with nine empty barges, arrived. The Niagara, with the same number, came in. The Warner, with five model barges loaded with iron, came in from Louisville. The Allegheny marks indicated nine feet six inches and falling. The Monongahela marks eight feet six. The America has the principal portion of her cargo on board. She will have dispatch for Memphis and New Orleans. The Columbia is announced as the first boat to leave for St. Paul. Boats on the Allegheny continue to make their trips with regularity and promptness. The Ida Rees No. 2 leaves for Oil City this afternoon. The Nora will be the last boat for the Idaho gold regions. Passengers can bear this in mind.

THE towboat Coal Hill left on Saturday for Cincinnati with 90,000 bushels of coal.

THE Grey Eagle, Captain Brennan, left for Parkersburg on Saturday with a fair trip.

THE river was rising at Cincinnati on Saturday, with 30 feet in the channel to Louisville.

THE Argosy left Cincinnati for this port on Friday evening.

A SMALL steamer, Mollie Fellows, was lost recently in Black Bayou, Red river.

THE Emma No. 2 was announced to leave Cincinnati for New Orleans on Saturday.

THE Belle Vernon passed Cairo on Friday, on her way to Pittsburgh, with a good trip.

THE packet Maggie Hays will load in turn for St. Louis and the Upper Mississippi.

THE new steamer Dubuque arrived at St. Louis on Friday. She would proceed at once to St. Paul. The Mississippi was in fine boating order to St. Paul.

THE steamer Camelia passed Evansville on Friday on her way to Cincinnati with 300 bales of cotton and 200 sacks peanuts.

THE steamers Lorena and Glendale passed Cincinnati on Friday, on their way to St. Louis. Both had excellent trips.

THE Cumberland river was rising at Nashville on Friday, with seven feet six inches on Harpeth shoals and falling.

THE steamer "Ezra Porter" left on Saturday for St. Paul with one of the best trips of the season. She was crowded with passengers.

THE fine steamer Ingomar, Capt. Kemper, leaves this morning at 11 A. M., for Matamoras and intermediate ports. Persons going that way will be well cared for on this boat.

TOWBOATS.—The following towboats came in since our last report: The Coal Valley and Niagara. The Warner also arrived with 5 model barges, loaded with iron ore, making ten in her two trips.

RATHER WIDE.—The river reporter of the Cincinnati *Gazette* is mistaken in the size of Walter Brown's scull-boat. She is 31 feet long and 13½ inches wide, not feet.

THE fine packet Columbia, Captain Reed, is announced for the Upper Mississippi. This boat is well found in every respect, and is in charge of careful and attentive officers.

THE fine packet Importer, Capt. John Noss, is announced for St. Louis, Galena, Dubuque and St. Paul. This boat has the best of accommodations and is in fine condition.

THE ONLY CHANCE.—The fine packet Nora, Capt. Shedden, is announced for the Idaho gold mines. To persons going that way, a fine opportunity is presented.

THE fine passenger steamer Kate Putnam, Captain J H Lightner, is announced for St. Louis, Galena, Dubuque and St. Paul, as an independent packet. This boat will be found in superior order, and in charge of careful and attentive officers.

STEAMER FOREST CITY SOLD.—This boat was disposed of on Saturday by the United States Marshal for $8,500, to Captain B. W. Lloyd, of Steubenville, who intends fitting her up for a daily packet to run between Wheeling and Steubenville.

THE fine side wheel packet Bayard, Capt. Moore, leaves this day, positively, at noon, for Parkersburg and intermediate ports. To persons going that way a fine opportunity is presented. Our old friend D. Moore will do the honors in the office.

IT is said that the greatest depth to be found in the Ohio River, from its source to the mouth, is at a point near Owensboro'—Bon Harbor. On fathoming its depth it is ascertained to measure about three hundred feet.

THE St. Louis *Republican* gives the following opinion of the Great Republic and Richmond: "Much has been said as to the relative merits of these steamers. For one, we'll say 'We are ready to bet on the Great Republic as the largest, finest and fastest steamer now afloat on western waters.'"

CAPT. PRES. LUDWICK has sold his interest—one-fourth—in the Portsmouth packet Bostona to Messrs. R. B. and William Moore, of Portsmouth, at the rate of $140,000 for the entire boat. Capt. E. B. Moore succeeds Capt. Pres. Ludwick in the command of the Bostona.

THE new Dick Fulton No. 3 is progressing rapidly under the superintendence of Capt. Packer. The engines are 22-inch cylinder, with 7 feet stoke. Four boilers, 42 inches in diameter; four flues, 26 feet long. She will be ready to take the track on the first of June.

THE first class passenger steamer Glasgow, Capt. G. W. Johnson, is announced for St. Louis, Galena, Dubuque and St. Paul, on Saturday, positively. This boat has great speed, superior accommodations, and makes her trips with great regularity. Persons who have traveled on the Glasgow speak in flattering terms of her appointments.

THE Louisville *Democrat* said the Great Republic was fearfully demoralized, to which the St. Louis *Democrat* retorts:

Not much. She is likewise and moreover about to run faster, carry bigger, and make money quicker than any Louisville owned boat ever did.

THE NEW STEAMER RUSSIA.—The Cunard steamer Russia, launched a few days ago in the Clyde, measures 3,141 tons. The hull is chain-riveted throughout, and there are eight water-tight bulkheads, with doors, can be opened and shut from the spar deck. The same builders have on hand another large steamer—the Sumatra—for the Cunard Company.

WINANS'S CIGAR SHIP.—A London correspondent says: The cigar ship Ross Winans has been for several days experimenting in the Channels, trying her speed and qualities as a sea boat in rough weather. If her propellers work as expected, she ought to make thirty knots an hour, and nothing less will satisfy Mr. Winans, who has been spending a mint of money on her.

ST. LOUIS, April 15.—EDS. COM.—The Mississippi is rising very fast, with a big river out to Cairo. Mountain boats are plenty, but freights scarce. They are taking freights for eight cents per pound. Ohio river freights are scarce. The Champion and Belle Vernon are up for Cincinnati, and will leave Friday. The Wild Duck and barges leave Carondelet this evening (Monday) for Pittsburgh, with 1,000 tons of ore, pig-iron and flour.

THE far famed packet America, Capt. Thomas H. Golding, is fast filling up for Memphis and New Orleans. This boat is one of the best of her class afloat and in the charge of Captain Golding, has won a reputation equal to any boat that comes to this port. The Captain is one of nature's noblemen—don't know how to perform a wrong action, and is justly admired by all who have the pleasure of his acquaintance. It gives us pleasure to say a good word for Captain Golding.

THE reporter of the COMMERCIAL wrote to us for a copy of "our picture" of the Great Republic which we very promptly sent, and, as will be seen by the above, he don't thank us for it, while the above reads very much like one who is not disposed to be thankful for even small favors. We had ordered our artist also to send him a copy of the Richmond, but now he shan't have it.—*Louisville Courier.*

There is no use in the *Courier* reporter trying to misrepresent facts. We have the picture, and that, of itself, is sufficient evidence that the job was "miserably executed." If the *Courier* man had nothing to do with it, why don't he say so. He seems, however, to "own our artist," and if instructions were violated the fault was not his. We don't wish to be under any obligations to any one. We paid for the picture and the charges to the express office. If the *Courier* man has any charges for ordering the same, state what the amount is. We are opposed to the "dead-head" system, and will accept favors from no person. If the coal information we furnished by dispatch and paid for, was not sufficient, tell us by all means how much we are in debt. In regard to the Richmond picture, we hope to survive. He need not send it, unless he will accept pay for the same, services included. That is the only way we do business.

St. Louis Items.

Friday's *Republican* says: The river at this point continues to swell. The same report comes from the upper streams. News received from the Upper Mississippi is such as to justify the Northern Line Packet Company starting the steamer Burlington for St. Paul, to leave on Saturday.

THE magnificent Great Republic is still the theme of general conversation, and crowds of people are availing themselves of the present fair weather by visiting the steamer as she now lies at Bloody Island. Capt. Donaldson will bring the boat to the city wharf on Sunday to load for New Orleans.

THE Carrie, Capt. Brady, leaves on Sunday for Fort Benton, and will be followed on Tuesday by the Luella, Capt. H. K. Hazlett.

WHAT the St. Louis *Republican* says of the Great Republic: The low-pressure steamer Richmond arrived in New Orleans on Sunday last, and was to leave for Louisville yesterday evening, which point she will leave, for New Orleans, on Wednesday next, which will place her in New Orleans with our Great Republic, when we may look for lively times coming up. Much has been said as to the relative merits of these steamers. For one, we'll say: We are ready to bet on the Great Republic as the largest, finest and fastest steamer now afloat on Western waters.

W. JOHNSON, SR., well known to steamboat builders as the superintendent of the Neal Foundry, in Madison, is lying very ill at his residence in that city. Mr. Ben Temple, son of the late Alexander F. Temple, is still seriously ill.

THE FIRST NATIONAL BANK OF PITTSBURGH, PA., (late Pittsburgh Trust Company,) Capital 500,000, paid in, with privilege to increase to $1,000,000.

The Pittsburgh Trust Company having organized under the Act to provide a National Currency, under the title of the FIRST NATIONAL BANK OF PITTSBURGH, would respectfully offer its services for the collection of Notes, Drafts, Bills of Exchange, &c.; receive money on deposit, and buy and sell Exchange on all parts of the country.

The success which has attended the Pittsburgh Trust Company since its organization in 1852, will we believe, be a sufficient guarantee that business entrusted to the new organization will receive the same prompt attention.

Having a very extensive correspondence with Banks and Bankers throughout the country, we believe we can offer unusual facilities to those who do business with us.

The business will be conducted by the same officers and directors.
